

JUL 27 1990

Docket No.: 50-244

Rochester Gas and Electric Corporation  
ATTN: Dr. Robert C. Mecredy  
Vice President, Nuclear Production  
49 East Avenue  
Rochester, New York 14649

Gentlemen:

Subject: Inspection 50-244/90-11 (06/12/90 - 07/16/90)

This transmits the June 12 through July 16, 1990, inspection findings of Messrs. C. Marschall and N. Perry at the R. E. Ginna Nuclear Power Plant. At the end of the inspection period, those findings were discussed with Mr. S. Spector and other members of your staff.

The enclosed report concludes that overall plant operation was conducted safely and that operators responded properly to several events. We also note that, although your initial actions to evaluate plant equipment following the unintentional energizing of the main generator could have been more comprehensive, you have initiated actions to improve the thoroughness of event analyses. We will assess the related impact on Ginna performance during routine inspections.

No response to this report is required. Thank you for your cooperation.

Sincerely,

ORIGINAL SIGNED BY:  
JON R. JOHNSON

Jon R. Johnson, Chief  
Projects Branch 3  
Division of Reactor Projects
