Gentlemen:

Subject: NRC Inspection Report No. 50-244/91-08

This refers to the routine safety inspection conducted by Dr. Jason C. Jang and Ms. Laurie Peluso of this office on April 1-5, 1991, of activities authorized by NRC License Number DPR-18 and to the discussions of our findings held by Dr. Jang and Ms. Peluso with Mr. Widay and others of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures, representative records, interviews with personnel, and observations by the inspector.

Based on the results of this inspection, no violations were observed. However, one weakness in the area of supervision of the Environmental Laboratory for the radiological environmental monitoring program was identified. Management attention and support are needed in this area as described in Section 4.4 of this inspection report.

Your cooperation with us in this matter is appreciated.

Sincerely,

Original Signed By:  
James H. Joyner
