

March 18, 1992

Docket No. 50-244

Dr. Robert C. Mecredy, Vice President  
Ginna Nuclear Production  
Rochester Gas & Electric Corporation  
89 East Avenue  
Rochester, New York 14649-0001

Dear Dr. Mecredy:

The U.S. Nuclear Regulatory Commission (NRC) has reviewed the Emergency Response Data System (ERDS) implementation plan that you submitted in your letter dated October 30, 1991. Based upon this review, the NRC has found that your implementation plan provides the basis for an acceptable implementation of the ERDS at your facility.

Be advised that the testing phase of ERDS implementation involves testing with the NRC contractor, Halliburton NUS Environmental Corporation. Since the contractor does not have unlimited resources for testing multiple ERDS links simultaneously, close coordination with Halliburton NUS in scheduling your ERDS testing will be a key element in the successful completion of ERDS implementation. The project manager at Halliburton NUS is Mr. Tony LaRosa, who may be reached at (208) 524-9227.

If you have any questions or problems in implementing the ERDS program, please contact Mr. John Jolicoeur, the NRC ERDS project manager, at (301) 492-4155, or me.

Sincerely,

Original signed by
