Vice President, Nuclear Production
Rochester Gas & Electric Corporation
89 East Avenue
Rochester, New York 14649

Dear Dr. Mecredy:

SUBJECT: REVIEW OF PROPOSED AMENDMENT TO TECHNICAL SPECIFICATION 6.5.1,
"PLANT OPERATIONS REVIEW COMMITTEE (PORC) FUNCTION", R. E. GINNA
NUCLEAR POWER PLANT - REQUEST FOR ADDITIONAL INFORMATION
(TAC NO. M83569)

We have reviewed your letter dated March 23, 1992, submitted to amend Technical Specification 6.5.1, "Plant Operations Review Committee (PORC) Function." The staff was concerned with the lack of a specification to the actual number of PORC members. By removing the specific titles of PORC members, the number of PORC members becomes indeterminate. The staff requires a statement describing the number of PORC members. This can be a fixed number, or a minimum and maximum number. If a fixed number is chosen, and it is larger than the current number, then the quorum needs to be revised to ensure, as a minimum, the current percentage of PORC members is required for a quorum. If it is not a fixed number, then the quorum requirement of Section 6.5.1.3 should be revised to reflect the staff position that the quorum should be a majority of the regular members. We ask that you respond to this request for additional information (RAI) at your earliest convenience.

The reporting and/or recordkeeping requirements contained in this letter affects fewer than ten respondents; therefore, the Office of Management and Budget (OMB) clearance is not required under P. L. 96-511.

Sincerely,
Original signed by
Allen R. Johnson, Project Manager
Project Directorate I-3
Division of Reactor Projects I/II
Office of Nuclear Reactor Regulation
