Docket No. 50-244

Dear Sirs:

This Annual Radioactive Effluent Release Report is being submitted in accordance with the requirements of Technical Specification Section 5.6.3.

A complete copy of the ODCM is included with changes made during this report period marked.

Please note that this submission also includes revised 1995 calculated doses to offsite individuals from gaseous effluents. This information is included in supplementary Table 4A and discussed in section 7.0 of this report. While the calculated 1995 dose estimates were revised upward, they remain a small fraction of the applicable limits of 10CFR50; Appendix I and 10CFR20.

Very truly yours,

Robert C. Meccredy
