**Subject:** [External] NRC license no. 21-00943-03 amendment request for authorization of 10CFR 35.394 material

Good morning Mr. Lieto,

I have reviewed your amendment request (NRC license no. 21-00943-03, St. Joseph Mercy Health System) to authorize Dr. Ramin B. Behjatnia, D.O for use of 10 CFR 35.394 material. I noted that there is an error on page 5 of the NRC form 313A(AUT), Second Section. The preceptor needs to attest that Dr. Behjatnia has satisfactorily completed the required clinical case experience for Oral Nal-131 in quantities greater than 33 mCi (this section was marked for oral administration of Nal-131 in quantities less than 33mCi). Please make the correction and resubmit page 5 of NRC form 3131A(AUT) under a signed and dated letter. You can email the letter and the attachment (page 5 of the NRC form 313A(AUT) to me or you can fax the information at 630-515-1078. Please let me know if you have any questions.

Thank you
