POST ACCIDENT SAMPLING AND ANALYSIS OF DISSOLVED GASES

receipt of modification equipment from GE which is scheduled for delivery to WNP-2 by November 30, 1983. The equipment is expected to be installed, tested and operational by February 1, 1984, at which time the final procedure for the sampling and analysis of dissolved gases will be transmitted. It is the position of the Supply System that the enclosed procedure is acceptable for unrestricted plant operation while the modifications to the PASS are implemented as stated in Reference 3. Our commitment to transmit the interim procedure as discussed in Reference 1 is complete per enclosure.

If there are any questions, please contact Mr. P. L. Powell, Manager, WNP-2 Licensing.

Very truly yours,

G. C. Sorensen, Acting Manager
