Docket No. 50-397

Director of Nuclear Reactor Regulation
Attention: Mr. A. Schwencer, Chief
Licensing Branch No. 2
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Schwencer:

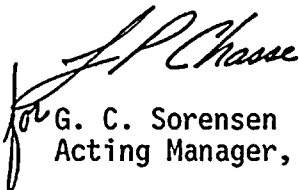

Subject: NUCLEAR PROJECT NO. 2
SAFETY EVALUATION REPORT, NUREG-0892,
OUTSTANDING ISSUE 1.7(9), MODIFICATIONS TO
ADS SYSTEM LOGIC - IMPLEMENTATION SCHEDULE

Reference: Letter, G. C. Sorensen (SS) to A. Schwencer (NRC),
"Safety Evaluation Report, NUREG-0892, Outstanding
Issue 1.7(9), Modifications to ADS System Logic",
dated July 26, 1983

The Supply System has determined that implementation of the planned changes (see above-referenced letter) to the ADS logic for WNP-2 can be accomplished during the first refueling outage. This commitment is based on hardware and analysis availability from the reactor vendor. All appropriate licensing documents will be changed at that time to reflect the modifications.

It is the Supply System's understanding that this letter completes our response on this subject.

Very truly yours,

G. C. Sorensen
Acting Manager, Nuclear Safety and Regulatory Programs
