Docket No. 50-397

January 11, 1984

Mr. D. G. Eisenhut, Director  
Division of Licensing  
Office of Nuclear Reactor Regulatory  
US Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Eisenhut:

Subject: AMENDMENT NO. 1 TO INDEMNITY AGREEMENT NO. B-94

Reference: Letter DG Eisenhut to DW Mazur, Issuance of Facility  
Operating License NPF-21, December 20, 1983

Enclosed for your information is a signed copy of Amendment No. 1 to Indemnity Agreement No. B-94, as requested in your letter of December 20, 1983 (reference).

We have discussed with the insurance underwriters the need to revise the wording in Item 4 - Location, to clarify that the "NELIA Site Description" also includes the Plant Support Facility/EOF and the access road between the WNP-2 Reactor and the Plant Support Facility.

Very truly yours,

G. C. Sorensen, Manager  
Regulatory Programs

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

Docket No. 50-397

AMENDMENT TO INDEMNITY AGREEMENT NO. B-94  
AMENDMENT NO. 1

Effective December 20, 1983, Indemnity Agreement No. B-94, between Washington Public Power Supply System and the Nuclear Regulatory Commission, dated August 25, 1982, is hereby amended as follows:

Item 2a. of the Attachment to the indemnity agreement is deleted in its entirety and the following substituted therefor:

Item 2 - Amount of financial protection

a. \$1,000,000 (From 12:01 a.m., August 25, 1982 to 12 midnight December 19, 1983 inclusive)

\$160,000,000\* (From 12:01 a.m., Dec. 20, 1983)

Item 3 of the Attachment to the indemnity agreement is deleted in its entirety and the following substituted therefor:

Item 3 - License number or numbers

SNM-1890 (From 12:01 a.m., August 25, 1982, to 12 midnight December 19, 1983 inclusive)

NPF-21 (From 12:01 a.m., December 20, 1983 )

\*and, as of August 1, 1977, the amount available as secondary financial protection.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. These include direct observation, interviews with key personnel, and the use of specialized software tools. Each method has its own strengths and limitations, and they are often used in combination to provide a comprehensive view of the situation.

The third part of the report details the findings of the study. It shows that there are significant discrepancies between the reported figures and the actual data. These differences are primarily due to incomplete reporting and a lack of proper documentation. The author suggests that implementing a more rigorous record-keeping system could help to resolve these issues.

Finally, the document concludes with a series of recommendations for future work. It suggests that regular audits should be conducted to ensure the accuracy of the records. Additionally, training should be provided to staff to ensure they understand the importance of proper documentation and how to use the new system effectively.

Item 4 of the Attachment to the indemnity agreement is deleted in its entirety and the following substituted therefor:

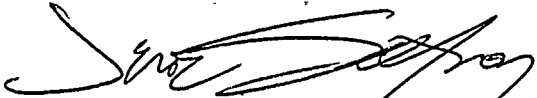

Item 4 - Location

All of the premises including the land and all buildings and structures of Washington Public Power Supply System's Project No. 2 including but not limited to the reactors known as WNP-1, WNP-2 and WNP-4 including the H. J. Ashe substation and the Benton switching station shown as being within the heavy black lines on the drawing designated as "NELIA Site Description" dated November 1, 1983 a copy of which is attached hereto and made a part hereof. The site consists of approximately 2,061 acres and is located on the U.S. Department of Energy's Hanford site in the southeastern part of the State of Washington. The site is approximately twelve (12) miles north of Richland, Washington and one hundred sixty (160) miles east-southeast of Seattle, Washington.

Item 5 of the Attachment to the indemnity agreement is amended by the following:

Nuclear Energy Liability Policy (Facility Form) No. MF-110 issued by Mutual Atomic Energy Liability Underwriters.

FOR THE UNITED STATES NUCLEAR REGULATORY COMMISSION

  
Jerome Saltzman, Assistant Director  
State and Licensee Relations  
Office of State Programs
