Richland, Washington 99352

Gentlemen:

By letters dated July 13 and August 14, 1984, the Division of Licensing (DL) staff informed your company of their approval of your application dated January 20, 1984, as supplemented, and issued Amendment Nos. 2 and 4 to Facility Operating License No. NPF-21. This application proposed eight Technical Specification changes for the WPPSS Nuclear Project No. 2. A Class II fee (\$1,200) was remitted with your application pursuant to 10 CFR 170.22 of the March 23, 1978 regulations.

Based on information provided by the DL staff as the result of their final review of your application, it has been determined that a Class IV fee (\$12,300) is appropriate since the review involved consideration of several safety issues. Therefore, you are requested to remit the additional sum of \$11,100 to this office.

For your information, a brief discussion of fees for applications for license amendments and other requests filed before and after June 20, 1984, is contained in Enclosure 1 to this letter. If you have any questions regarding fees, please contact us on 301-492-7225.

Sincerely,

Original Signed by:
