Docket No. 50-397

Washington Public Power Supply System  
 P. O. Box 968  
 Richland, Washington 99352

85-22

Attention: Mr. G. C. Sorensen, Manager  
 Regulatory Programs

Gentlemen:

Subject: NRC Inspection

This refers to the routine inspection conducted by Mr. P. Qualls of this office between June 10-28, July 31 and a telephone conversation on July 9, 1985, of activities authorized by NRC License No. NPF-21, and to the discussion of our findings held by Mr. Qualls with Mr. Powers and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Based on the results of this inspection, it appears that certain of your activities were not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A.

Your response to this Notice is to be submitted in accordance with the provisions of 10 CFR 2.201 as stated in Appendix A, Notice of Violation.

Discrepant conditions, similar to those cited in the enclosed Notice of Violation, were identified in the Notice of Violation transmitted to you by our letter dated March 19, 1985, and were addressed in your response dated April 17, 1985. At the time of this inspection, however, these conditions had not been corrected. We are concerned about your apparent lack of management attention to the implementation of effective corrective actions and your apparent failure to apply sufficient attention to the area of fire protection program implementation. In addition to the response directed by the enclosed Notice, please address this issue in your reply, along with the actions you will take to ensure timely and effective corrective actions for identified violations.

In accordance with 10 CFR 2.790(a), a copy of this letter, the enclosure and your response will be placed in the NRC Public Document Room.

The responses directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this inspection we will be glad to discuss them with you.

Sincerely,

Original signed by  
D. F. Kirsch

D. F. Kirsch, Acting Director  
Division of Reactor Safety and  
Projects
