Docket No. 50-397

Mr. G. C. Sorensen, Manager  
Regulatory Programs  
Washington Public Power Supply System  
P.O. Box 968  
3000 George Washington Way  
Richland, Washington 99352

Dear Mr. Sorensen:

Subject: Chlorine Monitor Tape Depletion and Spurious High Delta Flow Reporting - 10 CFR 50.72 and 50.73 Exemption Requests

References: (1) Letter G02-86-695, Sorensen (SS) to Adensam (NRC), subject: Event Report Exemption Request for Additional Information, dated July 28, 1986

(2) Letter, Butler (NRC) to Sorensen (SS), subject: Reporting Requirement Exemption Request dated October 18, 1985

This letter is in response to your request for information (Reference 1) regarding the status of our review of the subject exemption requests.

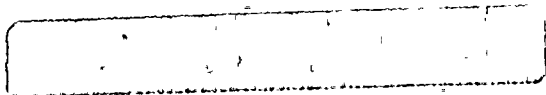

We have been informed that the Office of Analysis and Evaluation of Operational Data (AEOD) has been reviewing the subject exemption requests. As discussed in our previous letter, Reference 2, the review was undertaken on a generic basis. We have learned that the review was halted for a time because the review resources were applied to other issues judged to be more urgent. We understand that the urgent effort is nearing completion so that the generic reevaluation of the requirements established in 10 CFR 50.72 and 50.73 will recommence within the next few weeks. We expect that the AEOD will establish a position sometime in 1987.

Sincerely,

*Elinor G. Adensam*

Elinor G. Adensam, Director  
BWR Project Directorate No. 3  
Division of BWR Licensing
