MEMORANDUM FOR: R. W. Starostecki, Associate Director
 For Inspection and Technical Assessment, NRR

FROM: Dennis F. Kirsch, Director
 Division of Reactor Safety and Projects

SUBJECT: REQUEST FOR NRR REVIEW OF WNP-2 FIRE PROTECTION PLANT
 EVALUATION

As a result of concerns raised by Region V and NRR staff, WNP-2 elected to re-assess their fire protection program in order to resolve the concerns and issues raised by the NRC.

Enclosed is the final report from WNP-2. The report identifies several fire protection program deficiencies for which the licensee has implemented or plans to implement improvement initiatives.

We conclude that the results of the licensee's fire protection program re-evaluation may have significant impact on NRR's review of the licensee's Amendment 37 to the WNP-2 FSAR. Therefore, we request that NRR take lead responsibility for review of this document. We have previously discussed this with Mr. Dave Notley of your staff.

If you have further questions regarding this matter, please contact Mr. Stuart Richards of my staff at FTS 463-3853.
