Washington, DC 20555-0001

Subject: Request for Withholding of the Following Commercial Documents:

Steam Generator Management Program: Eddy Current Array Probe
Documentation for Examination Technique Equivalency, EPRI, Palo Alto, CA:
2017. 3002010707

Steam Generator Management Program: Pressurized Water Reactor
Chemistry Knowledge Transfer, Volume 3, EPRI, Palo Alto, CA: 2017.
3002010461

Steam Generator Management Program: Investigation of Onset of In Plane
Fluid Elastic Instability in Air Flow with Simulated Tubes, EPRI, Palo Alto, CA:
2017. 3002010355

Steam Generator Management Program: Summary of 2016 Research into
Lead Stress Corrosion Cracking Trends-Effect of Applied Potential on Alloy
690TT and pH on Alloy 800, EPRI, Palo Alto, CA: 2017. 3002010397

Advanced Nuclear Technology: Alloy 690 Steam Generator Tubing
Specification Sourcebook, EPRI, Palo Alto, CA: 2016. 3002009412

To Whom It May Concern:

This is a request under 10 C.F.R. §2.390(a)(4) that the U.S. Nuclear Regulatory Commission ("NRC") withhold from public disclosure the information identified in the enclosed Affidavit consisting of the commercial information owned by Electric Power Research Institute, Inc. ("EPRI") identified above (the "Report"). Copies of the Report and the Affidavit in support of this request are enclosed.

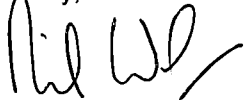

EPRI desires to disclose the Report in confidence as a means of exchanging technical information with the NRC. The Report is not to be divulged to anyone outside of the NRC nor shall any copies be made of the Report provided herein. EPRI welcomes any discussions and/or questions relating to the information enclosed.

AFFIDAVIT

RE: Request for Withholding of the Following Commercial Document:

Steam Generator Management Program: Eddy Current Array Probe Documentation for Examination Technique Equivalency, EPRI, Palo Alto, CA: 2017. 3002010707

Steam Generator Management Program: Pressurized Water Reactor Chemistry Knowledge Transfer, Volume 3, EPRI, Palo Alto, CA: 2017. 3002010461

Steam Generator Management Program: Investigation of Onset of In Plane Fluid Elastic Instability in Air Flow with Simulated Tubes, EPRI, Palo Alto, CA: 2017. 3002010355

Steam Generator Management Program: Summary of 2016 Research into Lead Stress Corrosion Cracking Trends-Effect of Applied Potential on Alloy 690TT and pH on Alloy 800, EPRI, Palo Alto, CA: 2017. 3002010397

Advanced Nuclear Technology: Alloy 690 Steam Generator Tubing Specification Sourcebook, EPRI, Palo Alto, CA: 2016. 3002009412

I, Neil Wilmschurst, being duly sworn, depose and state as follows:

I am the Vice President and Chief Nuclear Officer at Electric Power Research Institute, Inc. whose principal office is located at 3420 Hillview Avenue, Palo Alto, California ("EPRI") and I have been specifically delegated responsibility for the above-listed Report that is sought under this Affidavit to be withheld (the "Report"). I am authorized to apply to the U.S. Nuclear Regulatory Commission ("NRC") for the withholding of the Report on behalf of EPRI.

EPRI requests that the Report be withheld from the public on the following bases:

Withholding Based Upon Privileged And Confidential Trade Secrets Or Commercial Or Financial Information (see e.g. 10 C.F.R. §2.390(a)(4)):

a. The Report is owned by EPRI and constitutes commercial information which has not been placed in the public domain by EPRI.

b. EPRI made a substantial economic investment to develop the Report and, by prohibiting public disclosure, EPRI derives an economic benefit in the form of fees charged for the sale of the Report. The Report is entitled to the protection of the United States copyright laws. If the Report was publicly available to consultants and/or other businesses providing services in the electric and/or nuclear power industry at no cost, these entities would be able to use the Report for their own commercial benefit and profit and without expending the substantial economic resources required of EPRI to develop the Report.

c. EPRI made a substantial investment of both money and employee hours over an extended period of time in the development of the Report. As a result of such effort and cost, both in terms of dollars spent and dedicated employee time, the Report is highly valuable to EPRI.

d. A public disclosure of the Report would be highly likely to cause substantial harm to EPRI's competitive position and the ability of EPRI to sell the Report both domestically and internationally. If a party does not purchase the Report from EPRI, it would require an investment of money, time and effort equivalent to that expended by EPRI for the party to duplicate the Report.

I have read the foregoing and the matters stated herein are true and correct to the best of my knowledge, information and belief. I make this affidavit under penalty of perjury under the laws of the United States of America and under the laws of the State of California.

Executed at 1300 W WT Harris Blvd. Charlotte NC being the premises and place of business of Electric Power Research Institute, Inc.
