Docket No. 50-397

Mr. G. C. Sorensen, Manager
Regulatory Programs
Washington Public Power Supply System
P. O. Box 968
3000 George Washington Way
Richland, Washington 99352

Dear Mr. Sorensen:

SUBJECT: SAFETY EVALUATION REPORT FOR GENERIC LETTER 83-28
ITEM 2.1 (PART 2) (VENDOR INTERFACE PROGRAMS - RTS
COMPONENTS) FOR WNP-2 (TAC NO. 60758)

The Washington Public Power Safety System was required by Generic Letter 83-28, Item 2.1 (Part 2) to confirm that you have established an interface with either the NSSS vendor or with the vendors of each of the components of your Reactor Trip System. The response was to confirm that this interface program includes periodic communication between WNP 2 and the vendor and a system of positive feedback which confirms receipt of transmittals of technical information. We have reviewed your responses of November 18, 1983 and May 17, 1985, as documented in the enclosed SER. We find your responses to Generic Letter 83-28, Item 2.1 (Part 2) to be acceptable. We, therefore, consider Part 2 of Item 2.1 to be closed by this action.

This review does not address Generic Letter B3-2B, item 2.2.2, "Vendor Interface Program For All Other Safety-Related Components." I will advise you of any further development on our review of item 2.2.2.

Sincerely,

original signed by
Robert B. Samworth, Senior Project Manager
