Attention: Mr. G. C. Sorensen, Manager  
Regulatory Programs

Gentlemen:

SUBJECT: NRC INSPECTION OF WNP-2

This refers to the routine on site inspection conducted by Mr. G. Cicotte of this office on February 21-24, 1989, of activities authorized by NRC License No. NPF-21, and to the discussion of our findings held by Mr. Cicotte with Mr. A. Oxsen, Mr. C. Powers and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Based on the results of this inspection, it appears that one of your activities was not conducted in full compliance with NRC requirements as set forth in the Notice of Violation, enclosed herewith as Appendix A.

Your response to this Notice is to be submitted in accordance with the provisions of 10 CFR 2.201 as stated in Appendix A, Notice of Violation.

This violation involves the failure to maintain conspicuous posting of a caution radiation area sign. Similar examples of failure to maintain radiation area postings have been previously brought to your attention by our inspectors during this last year. In view of your planned April 1989 refueling outage we expect your response to the violation will describe more effective corrective actions.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

The responses directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
