G02-89-116  
Docket No. 50-397

U. S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Mail Station P1-137  
Washington, D.C. 20555

Gentlemen:

Subject:           GENERIC LETTER 88-14 "INSTRUMENT AIR SUPPLY SYSTEM PROBLEMS  
AFFECTING SAFETY-RELATED EQUIPMENT"

Reference:        Letter G02-89-011, GC Sorensen (SS) to NRC same subject, dated  
January 30, 1989

The reference committed to providing a final report for the subject Generic Letter, including results from tests to be conducted during our spring 1989 outage, by July 7, 1989. As you are aware, the outage schedule was deferred two weeks and has also been extended. As a result, the tests to be done during the outage and the finalization of the report including those tests cannot support the July 7, 1989 commitment. Accordingly, the final report, including outage test results, will be provided by July 28, 1989.

Very truly yours,

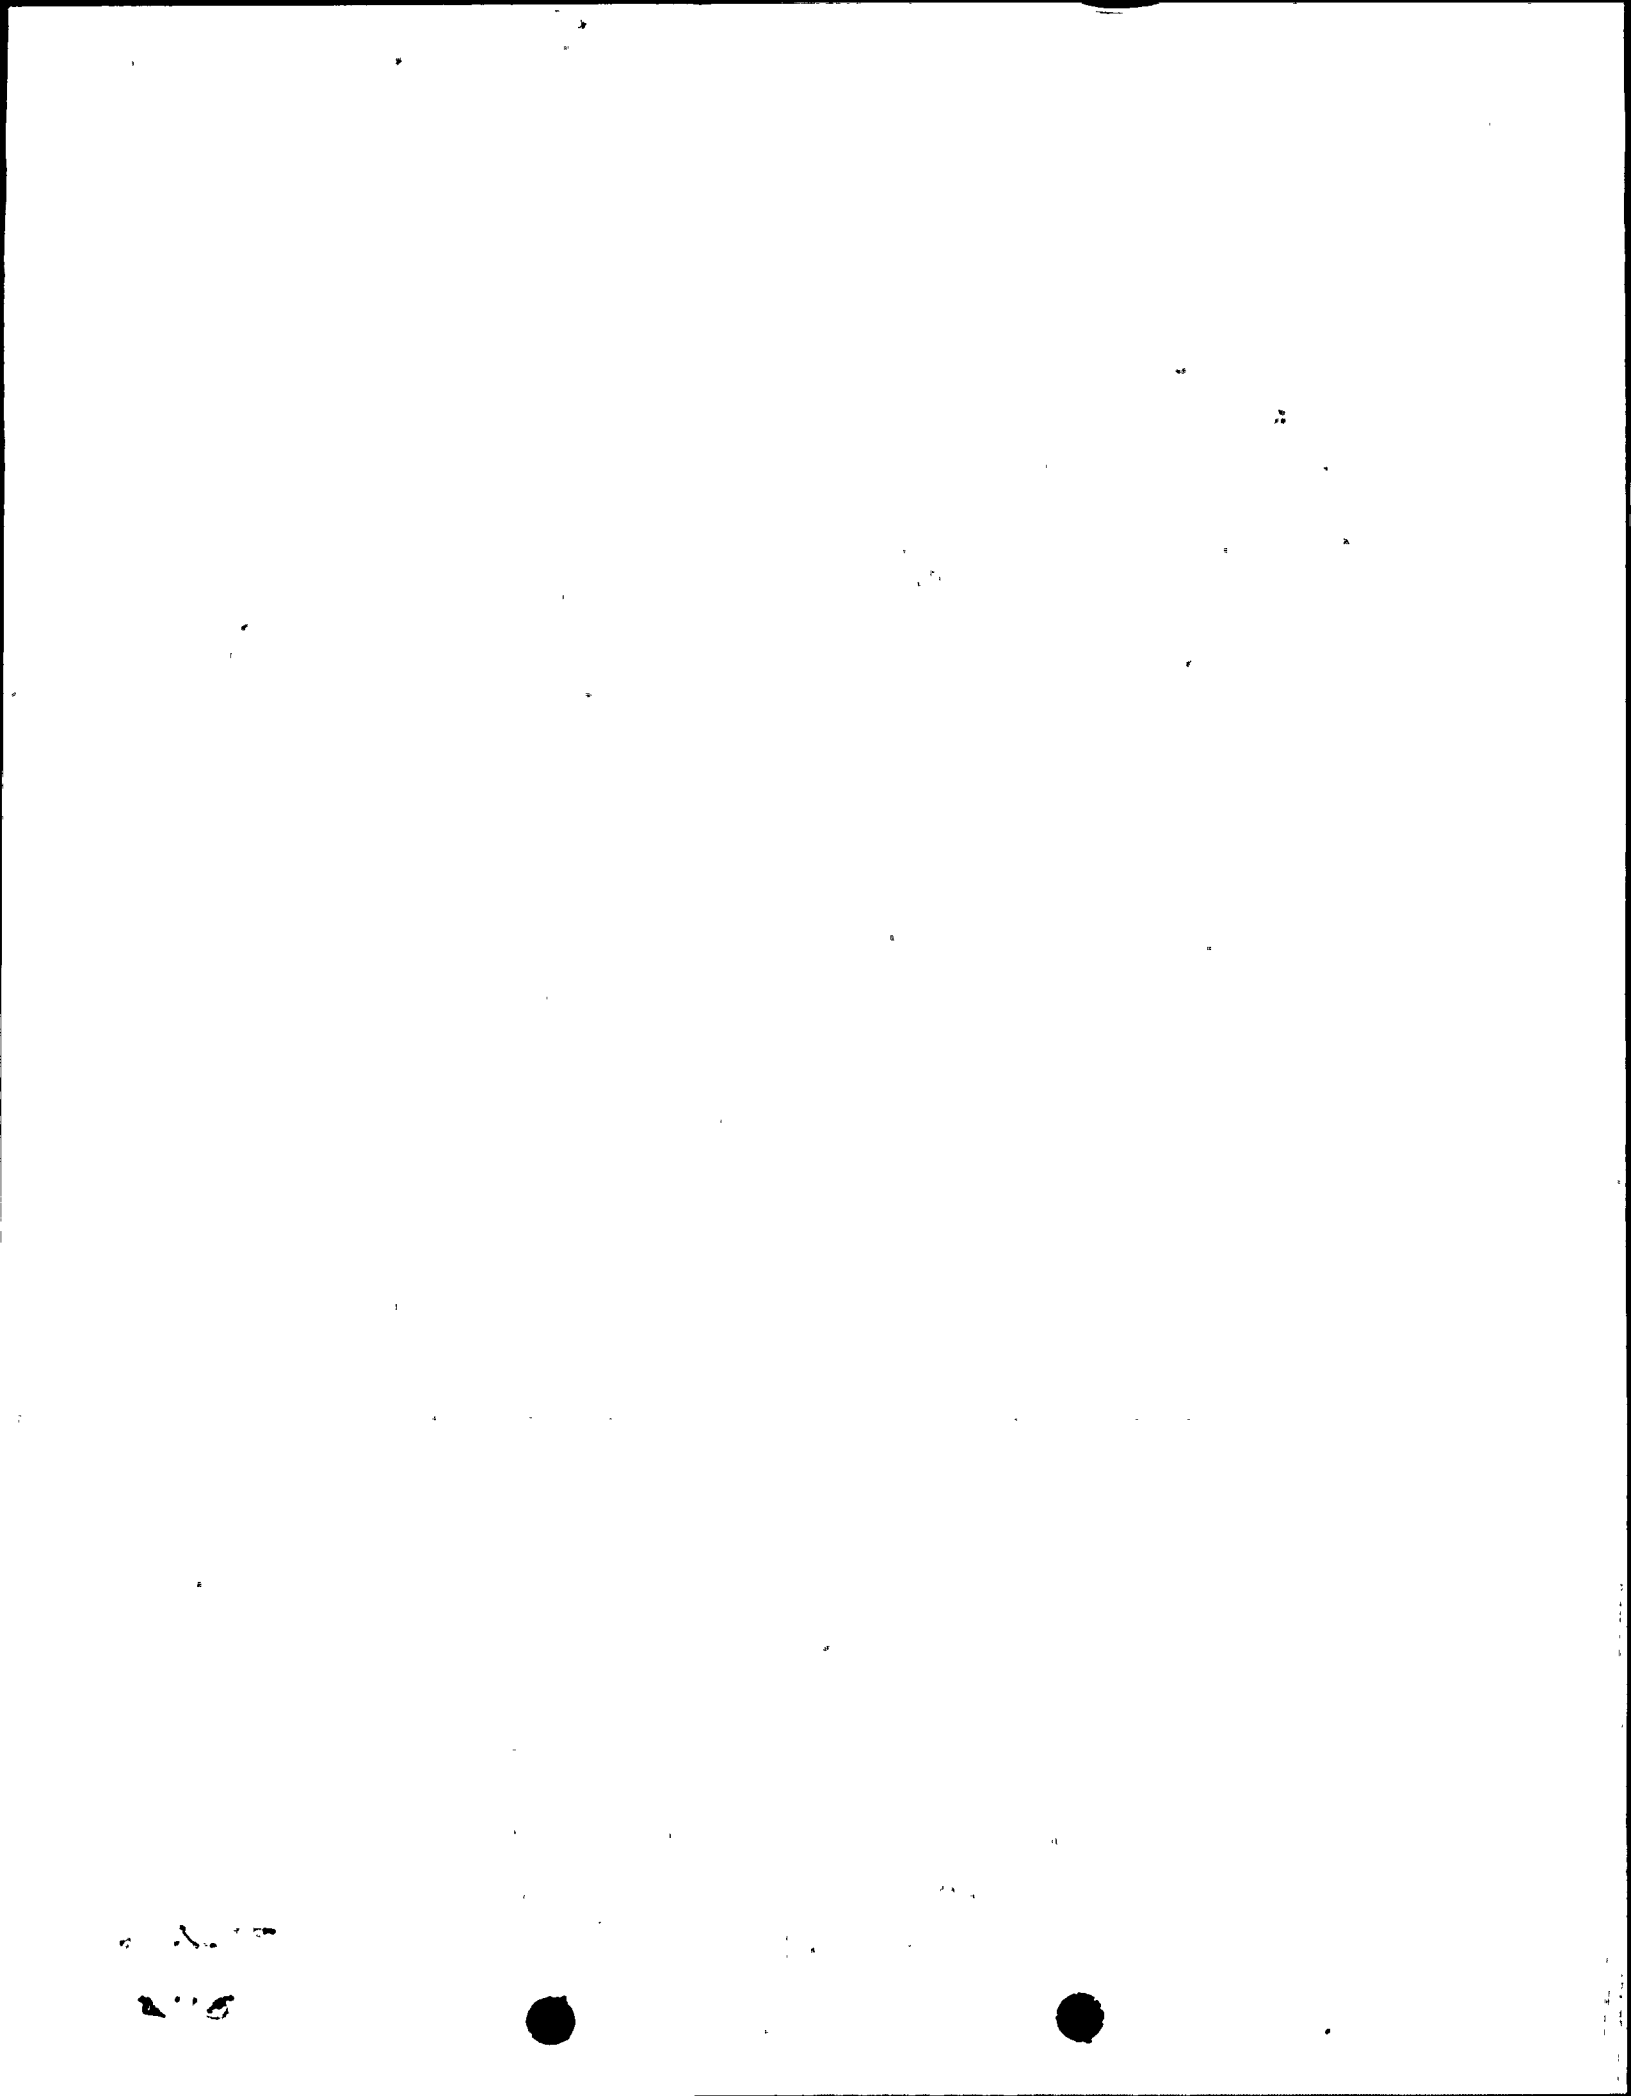

G. C. Sorensen, Manager  
Regulatory Programs
