Docket No. 50-397

Washington Public Power Supply System
P. O. Box 968
3000 George Washington Way
Richland, Washington 99352

Attention: Mr. G. C. Sorensen, Manager
Regulatory Programs

SUBJECT: WNP-2 RESPONSE TO NRC INSPECTION REPORT NO. 91-27

Thank you for your response, dated November 21, 1991, to our Inspection Report 50-397/91-27, concerning emergency operating procedure (EOP) development.

From our review of this document, and our subsequent February 24-27, 1992 followup inspection (50-397/92-04) of your corrective action plan, we have determined that the Supply System has adequately addressed the pre-restart commitments regarding operator training and ability to use the EOPs.

However, the issues involving the more generic design, implementation, and strategy EOP deviations, are still being evaluated by NRR.

Therefore, we are particularly interested in the progress of your long term EOP upgrade program, as discussed in your response. Please keep us apprised of the results of these efforts.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

Dennis F. Kirsch, Chief
Reactor Safety Branch
