Attention: Mr. A. L. Oxsen
Acting Managing Director

Subject: LICENSED OPERATOR REQUALIFICATION PROGRAM SATISFACTORY STATUS

The NRC conducted a requalification program evaluation at your Washington Nuclear Plant Unit 2 (WNP-2) facility during the week of November 16 - 20, 1992. The examination results indicate that all of the operators that were examined passed their individual examinations. Furthermore, the results indicate that the program has satisfied the requirements of NUREG-1021 "Examiner Standards," ES-601, "Administration of NRC Requalification Program Evaluations" for a satisfactory program evaluation.

Examination Report 50-397/OL-92-01, which will be issued under a separate cover, will provide the detailed results of the program evaluation and individual operator requalification examinations. Therefore, the NRC has determined that your operator requalification training program status is satisfactory.

If you have any questions, please contact Lew Miller at 510-975-0302.

Sincerely,

K. E. Perkins, Jr., Director
Division of Reactor Safety
