**Subject:** Petition for Rulemaking on "Linear No-Threshold Model and Standards for Protection Against Radiation"  
**Date:** Thursday, May 26, 2016 8:50:00 AM

---

Dear Dr. Doss:

This e-mail is to provide an update on the petition for rulemaking (PRM) that you submitted to the U.S. Nuclear Regulatory Commission (NRC), PRM-20-30, dated February 24, 2015 (Accession No. [ML15075A200](#) in the NRC's Agencywide Documents Access and Management System (ADAMS)). The NRC received two additional petitions on the same topic (PRM-20-28 and PRM-20-29); all three petitions were docketed using the same Docket ID (NRC-2015-0057). You requested that the NRC amend its requirements in Title 10 of the *Code of Federal Regulations* (10 CFR) Part 20 to take radiation hormesis into account.

The petition was assigned Docket No. PRM-20-30. PRM-20-30 and the other two petitions are currently under review by NRC staff. Please reference this docket number on any correspondence you may have concerning the petition.

You can monitor the docket for the petition on the Federal rulemaking Web site, <http://www.regulations.gov>, by searching on Docket ID NRC-2015-0057. In addition, the Federal rulemaking Web site allows you to receive alerts when changes or additions occur in a docket folder. To subscribe: (1) navigate to the docket folder NRC-2015-0057; (2) click the "E-mail Alert" link; and (3) enter your e-mail address and select how frequently you would like to receive e-mails (daily, weekly, or monthly). The NRC also tracks all petition actions on its Web site at <http://www.nrc.gov/reading-rm/doc-collections/rulemaking-ruleforum/petitions-by-year.html>.

If you have any comments, questions or concerns, please do not hesitate to contact me.

Thank you,

*Vanessa Cox*
