SUBJECT: MANAGEMENT MEETING

This refers to the meeting conducted in the Region IV office on August 1, 1994. The meeting was held at your request to discuss the Washington Nuclear Project 2 facility and the status of fire protection commitments that were made by you based on NRC Inspection Report 50-397/93-51 findings. Of particular interest was the action taken by you as a result of your reinvestigation of the employee concern program file. The meeting proved to be of value in that it was informational and provided NRC a better understanding of the issues involved.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the NRC's Public Document Room.

Should you have any questions concerning this matter, we will be pleased to discuss them with you.

Sincerely,

Thomas P. Gwynn, Director
Division of Reactor Safety
