

UNITED STATES NUCLEAR REGULATORY COMMISSIONWASHINGTON PUBLIC POWER SUPPLY SYSTEMDOCKET NO. 50-397NOTICE OF WITHDRAWAL OF APPLICATION FOR
AMENDMENT TO FACILITY OPERATING LICENSE

The United States Nuclear Regulatory Commission (the Commission) has granted the request of the Washington Public Power Supply System (WPPSS, or the licensee) to withdraw its October 23, 1990, application for proposed amendment to Facility Operating License No. NPF-21 for the WPPSS Nuclear Project No. 2, located in Benton County, Washington. The proposed amendment would have revised the technical specifications to add specific action statements for the event of inoperable scram discharge volume vent and/or drain valves.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the FEDERAL REGISTER on August 7, 1991 (56 FR 37591). However, by letter dated September 2, 1994, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated October 23, 1990, and the licensee's letter dated September 2, 1994, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's
