SUBJECT: NRC INSPECTION REPORT 50-397/94-23

This refers to the inspection conducted by Dr. D. Blair Spitzberg, and the inspectors identified in the enclosed report, during the period September 12-16, 1994. This inspection included a review of activities authorized for your Washington Nuclear Project, Unit 2 facility. At the conclusion of the inspection, the findings were discussed with you and members of your staff identified in the enclosed report.

Areas examined included the implementation of your emergency plan and procedures during your annual emergency exercise. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. The inspection findings are documented in the enclosed inspection report.

Overall, your performance during the exercise was excellent and your emergency response staff demonstrated effective implementation of your emergency plan.

In accordance with 10 CFR 2.790(a) of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Samuel J. Collins, Director
Division of Radiation Safety and
Safeguards
