7590-01

UNITED STATES NUCLEAR REGULATORY COMMISSION WASHINGTON PUBLIC POWER SUPPLY SYSTEM DOCKET NO. 50-397

NOTICE OF WITHDRAWAL OF AMENDMENT TO FACILITY OPERATING LICENSE

The U.S. Nuclear Regulatory Commission (the Commission) has granted a request by Washington Public Power Supply System (the licensee) to withdraw its May 10, 1993, and supplement dated May 21, 1993, application for an amendment to Facility Operating License No. NPF-21 for operation of the Nuclear Project No. 2, located in Benton County, Washington.

The proposed amendment would have revised Section 6 (Administrative Controls) of the Technical Specifications (TS) to modify the composition, organizational assignments, and reporting relationship of the personnel performing the Independent Safety Engineering Group (ISEG) function in the current Nuclear Safety Assurance Division (NSAD). Also, the change would have modified the title of the Quality Assurance (QA) member of the Plant Operations Committee (POC) to reflect the new QA organization.

The Commission had previously issued a Notice of Consideration of Issuance of this amendment published in the FEDERAL REGISTER on August 18, 1993 (58 FR 43937). However, by letter dated September 8, 1993, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated May 10, 1993, and supplement dated May 21, 1993, and the licensee's letter dated September 8, 1993, which withdrew the application for license amendment.

The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Richland Public Library, 955 Northgate Street, Richland, Washington 99352.

Dated at Rockville, Maryland, this 29th day of August 1995.

FOR THE NUCLEAR REGULATORY COMMISSION .

R

Brian E. Holian, Senior Project Manager Project Directorate IV-2 Division of Reacttor Projects III/IV Office of Nuclear Reactor Regulation
