

ENCLOSURE

NOTICE OF VIOLATION

Washington Public Power Supply System
Washington Nuclear Project-2

Docket No.: 50-397
License No.: NPF-21

During an NRC inspection conducted on June 1-5, 1998, one violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," NUREG-1600, the violation is listed below:

Technical Specification 5.4.1.a. states, in part, that written procedures shall be established, implemented, and maintained covering the applicable procedures recommended in Regulatory Guide 1.33, Revision 2, Appendix A, February 1978.

Regulatory Guide 1.33, Appendix A, Section 7.e.9, requires procedures for the implementation of the ALARA program.

- Section 2.3 of Procedure GEN-RPP-13, "ALARA Committee," Revision 1, states, in part, that the senior site ALARA committee is responsible for the review of outage exposure goals.
- Section 5.1.4 of Procedure GEN-RPP-14, "Control of Temporary Shielding," Revision 1, states, in part, that the ALARA shielding coordinator is responsible for ensuring that ALARA reviews are performed to determine shielding requirements and evaluating the exposure reduction effectiveness (of the shielding).

Contrary to the above,

- On June 3, 1998, the inspector determined that the exposure goal for Refueling Outage 13 was not reviewed by the senior site ALARA committee prior to the outage.
- On June 4, 1998, the inspector identified that ALARA reviews and exposure reduction effectiveness evaluations were not performed to determine shielding requirements and the exposure reduction effectiveness (of the shielding).

This is a Severity Level IV violation (Supplement IV) (50-397/9810-01).

Pursuant to the provisions of 10 CFR 2.201, Washington Public Power Supply System is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region IV, 611 Ryan Plaza Drive, Suite 400, Arlington, Texas 76011, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation or severity level, (2) the corrective steps that have been taken and the results achieved, (3) the corrective

steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

If you contest this enforcement action, you should also provide a copy of your response to the Director, Office of Enforcement, United States Nuclear Regulatory Commission, Washington, DC 20555-0001.

Because your response will be placed in the NRC Public Document Room (PDR), to the extent possible, it should not include any personal privacy, proprietary, or safeguards information so that it can be placed in the PDR without redaction. If personal privacy or proprietary information is necessary to provide an acceptable response, then please provide a bracketed copy of your response that identifies the information that should be protected and a redacted copy of your response that deletes such information. If you request withholding of such material, you must specifically identify the portions of your response that you seek to have withheld and provide in detail the bases for your claim of withholding (e.g., explain why the disclosure of information will create an unwarranted invasion of personal privacy or provide the information required by 10 CFR 2.790(b) to support a request for withholding confidential commercial or financial information). If safeguards information is necessary to provide an acceptable response, please provide the level of protection described in 10 CFR 73.21.

Dated at Arlington, Texas,
this 18th day of June 1998.
