

Vogtle Electric Generating Plant
Units 3 and 4
52-00025 and 52-00026
Radiation Safety Inspection
Initial Information Request
Inspection Report: 2017004

During the week of December 4 - 8, 2017, the NRC will perform a Radiation Safety Inspection at the Vogtle Electric Generating Plant, Units 3 & 4 (NRC Inspection Procedures 83746 and 80522).

Experience has shown that this inspection is resource-intensive for both the NRC inspectors and your staff. In order to minimize the impact to your onsite resources and to ensure a productive inspection, we are requesting in advance documents needed for this activity. It is important that all of these documents are up-to-date, and complete, thereby minimizing the number of additional documents requested during the preparation, and/or the onsite portions of the inspection. The NRC requests that these documents be provided to the inspectors no later than November 20, 2017.

If there are any questions about this inspection or the material requested, please contact the lead inspector, Adam Nielsen at 404-997-4660, or the Engineering Branch 3 Chief, Brian Bonser at 404-997-4653.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390, "Public inspections, exemptions, requests for withholding," a copy of this document will be available electronically for public inspection in the NRC Public Document Room, or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS); accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

PAPERWORK REDUCTION ACT STATEMENT

This document does not contain new or amended information collection requirements subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). Existing information collection requirements were approved by the Office of Management and Budget under control numbers 3150-0008, 3150-0151, 3150-0014, 3150-0044, and 3150-0135.

PUBLIC PROTECTION NOTIFICATION

The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement, unless the requesting document displays a currently valid Office of Management and Budget control number.

Document Request List

Inspection Dates: December 4 – 8, 2017

Documents Due to Region II by: November 20, 2017

Inspection Procedures: IP 80522 Part 52, Radiological Environmental Monitoring Program (REMP)
IP 83746 Part 52, Offsite Dose Calculation Manual (ODCM)

Lead Inspector: Adam Nielsen
Sr. Health Physicist
US NRC Region II
(404) 997-4660
Adam.Nielsen@nrc.gov

Note: The current version of these documents is expected unless specified otherwise. Electronic media (CD) is preferred if readily available. *Note that the inspectors cannot accept data provided on USB or “flash” drives due to NRC IT security policies.* If there are questions regarding the documents requested, or if the documents cannot be provided by the due date, please do not hesitate to contact the lead inspector.

Miscellaneous

1. List of primary contacts w/phone numbers
2. Collection schedule for REMP samples during the week of inspection (may coincide with Unit 1 & 2 sample collection)
3. Offsite Dose Calculation Manual (ODCM)
4. Summary of changes made to the REMP as a result of Units 3 & 4 (e.g. new air samplers added, new TLD locations, new analysis laboratory, etc.), if any
5. Summary of changes made to the meteorological monitoring program as a result of Units 3 & 4 (e.g. new met tower or instruments added, new site “centerpoint” added, additional X/Q, D/Q calculations performed, etc.), if any
6. Summary of changes made to Land Use Census results due to Units 3 & 4 (e.g. new gardens, new critical receptor, etc.), if any
7. Procedures for collection, analysis, release, and dose evaluations for gaseous and liquid effluents
8. Procedures for collection and analysis of REMP samples
9. Procedures for calibration and maintenance of REMP air and/or water samplers
