You are very welcome, Cinthya. Please allow me to correct the grammatical error (“concur” to “concur”) in my earlier note:

Dear Ms. Roman:

The Virginia Department of Health’s Office of Radiological Health (ORH) received your letter of September 21, 2017 affording us the opportunity to review and comment on the Draft Environmental Assessment for the Proposed Renewal of the U.S. Nuclear Regulatory Commission (NRC) License Number: SNM-2507 for the North Anna Power Station Independent Spent Fuel Storage Installation in Louisa County, Virginia, Docket Number: 72-16, dated September 2017. We appreciate the NRC’s thorough analysis of Dominion’s application renewal request and, based on that analysis, **concur** with the NRC’s conclusion and draft Finding of No Significant Impact as presented on page 31 of the subject document.

Please feel free to contact me should you have any questions concerning our position in this regard.

Thanks!
