TO:
JOHN CRAIG

11/19/96
1:00 pm.

Dear Anna May Haycraft,

Enclosed are some of my comments on the Strategic Assessment and Restaselining Initiative Stakeholders Meeting that I was able to attend on November 8, 1996 at the Ramada O'Hare Inn.

Since most of the NRC meetings are held in Bethesda, Md., I was pleased that the Public was invited to this meeting in Chicago.

I have also enclosed the National League of Women Voters position on Energy, which explains the Rockford's League's Intervention in the Operating License of the Byron Nuclear Power Plant and the comments I have written and enclosed.

Note: "Energy position paper not enclosed."
SECY.

Sincerely,
Betty Johnson

COMMENT:

Protection of the Public Health and Environment needs to be the top priorities for the U.S. N.R.C., and Dept. of Energy in all their regulatory responsibilities, to accomplish this they must work closely with National, State and Local EPA, Departments of Public Health, and other agencies in these fields in setting regulations for nuclear material use, disposal, etc.
