AMENDMENT NO. 19

INTRODUCTION

Amendment No. 19 to the Preliminary Safety Analysis Report for Palo Verde Nuclear Generating Station Units 1, 2 and 3 is comprised of insert pages which address those subjects for which a commitment was made in Amendment 17. In particular, this amendment presents the results of the seepage analysis and associated liquefaction analysis.

A change bar and number "19" identify new and amended text; shading identifies amended areas of illustrations. "Amendment 19" and the date "December 8, 1978" identify pages and figures changed by the amendment. The pages of this post-construction permit amendment are printed on blue-colored paper.

When an insert page in the Amendment has the same number as an existing page in the PSAR, the existing page has been superseded and should be deleted. Where an insert page does not duplicate an existing page, the insert page is new and should be placed in its proper location in the PSAR.

Those holders of the License Application should insert the transmittal letter, included herein, in the License Application.
