Subject: A 50.55(e) Potentially Reportable Deficiency  
Relating to Operability Failure of Vertical  
Fire Dampers  
Interim Report  
File: 80-019-026

Reference: Telephone Conversation between J. Eckhardt and  
B. S. Kaplan on June, 4, 1980 (DER 80-9)

Dear Sir:

The NRC was notified of a potentially reportable deficiency in the referenced telephone conversation. At that time, it was estimated that a determination of reportability would be made within thirty (30) days.

Due to the extensive investigation and evaluation required, an interim report is attached. It is now expected that this information will be finalized by September 15, 1980, at which time a complete report will be submitted.

Very truly yours,

E. E. Van Brunt, Jr.  
APS Vice President  
Nuclear Projects  
ANPP Project Director
