UNITED STATES NUCLEAR REGULATORY COMMISSION

DOCKET NOS. STN 50-518, STN 50-519, STN 50-520, STN 50-521

TENNESSEE VALLEY AUTHORITY

NOTICE OF ISSUANCE OF AMENDMENTS TO CONSTRUCTION PERMITS

Notice is hereby given that the U. S. Nuclear Regulatory Commission (the Commission) has issued Amendments No. 4 to Construction Permit Nos. CPPR-150, CPPR-151, CPPR-152, and CPPR-153 issued to the Tennessee Valley Authority for construction of the Hartsville Nuclear Plants, Units A1, A2, B1, and B2, located at the permittee's site in Trousdale and Smith Counties, Tennessee. The amendments reflect deletion of construction monitoring requirements relating to water quality and aquatic biota. The amendments are effective as of the date of issuance.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations. Prior public notice of these amendments is not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments is a ministerial action required as a matter of law and that an environmental impact assessment need not be prepared.

For further details with respect to this action see (1) the application for amendments dated October 31, 1980, (2) Amendment No. 4 to Construction Permit CPPR-150, (3) Amendment No. 4 to Construction Permit CPPR-151, (4) Amendment No. 4 to Construction Permit CPPR-152, and (5) Amendment No. 4 to Construction

Permit CPPR-153. All of these items and other related material are available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C., and at the Local Public Document Room located at the Tennessee State Library and Archives, 403 Seventh Avenue, North, Nashville, Tennessee.

A copy of items (2), (3), (4), and (5) may be obtained upon request addressed to the U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 29th day of December 1980.

FOR THE NUCLEAR REGULATORY COMMISSION

A. Schwencer, Chief
Licensing Branch No. 2
Division of Licensing
