Subject: Post-TMI Requirements for the Emergency
Operations Facility (Generic Letter
No. 81-10)

Reference: Letter from D. G. Eisenhut, NRC, to ALL
Licensees of Operating Plants and Holders
of Construction Permits dated February 18, 1981

Dear Mr. Eisenhut:

The clarification enclosed with the referenced letter states the following implementation dates for operating license applications regarding upgraded emergency facilities:

1. "For operating license applications, such (conceptual) design information should be provided in connection with the OL review process."
2. "For OL expected to be issued after October 1, 1982, the upgraded facilities shall be operational prior to receiving an operating license."

Arizona Public Service Company, Project Manager and Operating Agent for the Palo Verde Nuclear Generating Station, confirms that these implementation dates will be met.

Very truly yours,

E. E. Van Brunt, Jr.
