Prairie Island Nuclear Generating Plant – Unit 1
Docket No. 50-282
Renewed Operating License No. DPR-42

PINGP Unit 1 - Updated Final Response to NRC Request for Information Pursuant to
10 CFR 50.54(f) Regarding the Seismic Aspects of Recommendation 2.3 of the
Near-Term Task Force Review of Insights from the Fukushima Dai-ichi Accident

Aspects of Recommendation 2.3 of the Near-Term Task Force Review of Insights from the Fukushima Daiichi Accident," dated September 12, 2013, ADAMS Accession No. ML13259A028.

On March 12, 2012, the Nuclear Regulatory Commission (NRC) Staff issued a request for information regarding Near-Term Task Force (NTTF) insights from the Fukushima Dai-ichi accident, to all NRC power reactor licensees and holders of construction permits in active or deferred status (Reference 1). Enclosure 3 of the March 12, 2012 letter contains specific Requested Actions, Requested Information, and Required Responses associated with NTTF Recommendation 2.3, Seismic. Northern States Power Company, a Minnesota corporation (NSPM), doing business as Xcel Energy, submitted the required response to the Requested Information for NTTF Recommendation 2.3, Seismic, for Prairie Island Nuclear Generating Plant (PINGP) in a letter dated November 26, 2012 (Reference 2). In Reference 2, as later amended in Reference 5, NSPM committed to complete seismic walkdowns of inaccessible components during the Fall Refueling Outage (RFO) 1R29. NSPM also committed to provide an updated seismic walkdown report with the results of the walkdowns of the inaccessible components 60 days following the completion of RFO 1R29.

The purpose of this letter is to submit, as enclosures, an updated seismic walkdown report with a summary of the results from the walkdowns of the inaccessible components completed during RFO 1R29. This letter completes all regulatory commitments associated with the seismic walkdown, specifically, "NSPM will complete the Seismic Walkdowns of the Inaccessible components listed in Appendix D, *Plan for Future Seismic Walkdown of Inaccessible Equipment*," and "NSPM will provide an updated seismic walk down report with the results of the walkdowns of the inaccessible components," (contained in Reference 2).

Enclosure 1 contains Sensitive Unclassified Non-Safeguards Information (SUNSI) of which the loss, issue, modification, or unauthorized access can reasonably be foreseen to harm the public interest, or the commercial or financial interests of NSPM. NSPM requests that this SUNSI information be withheld under 10 CFR 2.390(d) (1). Pages which contain SUNSI information have been marked with a header, and the sensitive information, such as locations of safety-related components, has been marked. Enclosure 2 provides a redacted version of Enclosure 1 for public disclosure.

If there are any questions, or if additional information is needed, please contact Stevie DuPont, Principal Licensing Engineer, at 651-267-7421.

Summary of Commitments

This letter contains no new commitments and closes two existing commitments.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on January 16, 2015.

 FOR Kevin Davison

Kevin Davison
Site Vice President, Prairie Island Nuclear Generating Plant
Northern States Power Company - Minnesota

Enclosures (2)

- ~~1. Seismic Walkdown Report, in response to the 50.54(f) information requested regarding Fukushima Near Term Task Force Recommendation 2.3: Seismic Updated Transmittal For Prairie Island Nuclear Generating Plant Unit 1 (SUNSI)~~
2. Seismic Walkdown Report, in response to the 50.54(f) information requested regarding Fukushima Near Term Task Force Recommendation 2.3: Seismic Updated Transmittal For Prairie Island Nuclear Generating Plant Unit 1 (REDACTED)
