Hi Stephen,

Thank you for the email. We did request to withhold the information with the initial submission. We only updated the country that the NRC requested to be removed. Please do not worry it is not a problem if it was published.

We look forward to receiving the draft license for review.

Thank you

Kevin

Kevin:

This is in response to your revised cover letter submitted on October 16, 2017, and the included request to withhold information contained in the revised cover letter from the public.

Because this information is the same information ISO-RAD had already submitted on the original application sent to the NRC without a request to withhold any information pursuant to 10 CFR 2.390, the NRC already made that entire submission publicly available on September 15, 2017.

In order to withhold information from the public, you must comply with all the requirements in 10 CFR 2.390 at the time of application. <https://www.nrc.gov/reading-rm/doc-collections/cfr/part002/part002-0390.html>

Hello Kevin,

Thank you for the quick response. One last thing, not sure if you are aware of this, we have decided to do an A and B export license for your request. PXB215a.00 and PXB215b.00, will be exact, except for the countries that you have listed and expiration date. Both licenses will have countries listed as you have noted in your letter.

You will receive the draft export license sometime tomorrow.

Thank You,

Joanne
