IN RESPONSE REFER
TO FOIA-83-609

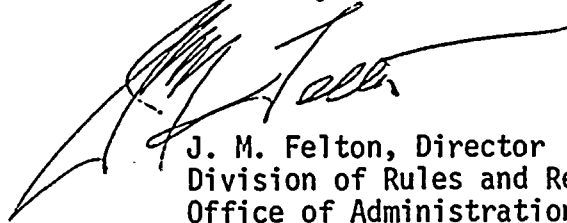

Dear Ms. Garde:

This is in further response to a letter from Ms. Lynne Bernabei dated October 17, 1983, in which she requested, pursuant to the Freedom of Information Act, records relating to problems encountered by the Arizona Public Service Company during hot functional testing of Palo Verde, Unit 1, including but not limited to the following failures: broken thermowells, loose and broken parts to the reactor coolant pumps, loose thermal sleeves, and cracked shrouds on the CEA upper support structure.

Appendix A is a list of documents responsive to this request. These documents are being placed in the NRC Public Document Room (PDR) in FOIA file folder 83-609 in your name.

The search for additional documents relevant to this request is continuing. When we have completed our search, you will be notified.

Sincerely,

J. M. Felton, Director
Division of Rules and Records
Office of Administration
