Mr. E. E. Van Brunt, Jr.  
Vice President - Nuclear Projects  
Arizona Public Service Company  
Post Office Box 21666  
Phoenix, Arizona 85036

Dear Mr. Van Brunt:

Subject: Request for Additional Information - Process Control Program for  
Palo Verde

By letter dated June 30, 1983, you submitted responses to staff questions relating to the Palo Verde Process Control Program (PCP). Subsequent to your response, Section 20.311, "Transfer for Disposal and Manifest", of 10 CFR Part 20, which became effective on December 27, 1983, established requirements for the transfer of radioactive waste destined for disposal at a land disposal facility. Specifically, Section 20.311 requires, among other things, that waste to be shipped be classified in accordance with Section 61.55 of 10 CFR Part 61 and be in a form which meets the requirements of Section 61.56.

In order to complete our review of the Palo Verde PCP, we require that you submit your program plans for complying with the requirements set forth in 10 CFR 20.311. All other responses to our previous questions on the PCP have been found satisfactory and, therefore, are acceptable.

Accordingly, we request that you submit the revised Palo Verde PCP which incorporates your previous responses, along with the response to the above request regarding compliance with 10 CFR 20.311. Within two weeks of receipt of this letter, we ask that you advise us as to when you will respond to this request.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions.

2. It is essential to ensure that all data is entered correctly and consistently.

3. Regular audits should be conducted to verify the accuracy of the information.

4. The second section covers the various methods used to collect and analyze data, including surveys and interviews.

5. These methods allow researchers to gather valuable insights into consumer behavior.

6. The third part of the document focuses on the challenges of data collection and analysis.

7. One major challenge is ensuring the reliability and validity of the data collected.

8. Another challenge is the time and cost involved in conducting large-scale data collection.

9. The fourth section discusses the importance of data security and privacy protection.

10. Organizations must implement robust security measures to protect sensitive information.

11. The fifth part of the document addresses the ethical considerations of data collection and analysis.

12. It is crucial to obtain informed consent from participants and to use the data responsibly.

13. The final section of the document provides a summary of the key findings and conclusions.

14. It emphasizes the need for ongoing research and innovation in data collection and analysis.

15. The document concludes by highlighting the importance of data in driving business success.
