RECEIVED
NRC

Dear Sir:

This letter refers to the Construction Assessment Team Inspection referenced above. Our response to the notice of deviation was transmitted by reference (2).

The committed date, for submittal of the draft revision of the applicable FSAR sections, has been revised. A revision to FSAR Sections 3.8.1.6.6 and 3A.10 will be submitted for NRC's information by June 1, 1984 and will be incorporated in a future amendment to the FSAR. This is due to a complete re-write, and associated lengthy review process, of SAR change notice 1123. However the committed corrective action has not changed and the final report for the Deficiency Evaluation Report was submitted on March 14, 1984.

If there are any questions, please let us know.

Very truly yours,

E. E. Van Brunt
