Mr. E. E. Van Brunt, Jr.
Vice President - Nuclear Projects
Arizona Public Service Company
Post Office Box 21666
Phoenix, Arizona 85036

Dear Mr. Van Brunt:

Subject: Palo Verde Unit 1 Technical Specifications - Proof and Review Copy

Enclosed for your information and review is the Proof and Review Copy of the technical specifications for Palo Verde Unit 1. These technical specifications are based on the NRC's Standard Technical Specifications for Combustion Engineering Pressurized Water Reactors. Copies of the technical specifications are also being distributed to the NRC technical review branches for their review.

We request that you review the technical specifications and provide us with your comments, or requested changes with appropriate justifications, in writing by September 12, 1984. We will resolve any comments received from you and the staff review branches prior to preparing a Final Draft version of the Palo Verde Unit 1 Technical Specifications. Approximately 30 days prior to the scheduled date for issuing the Operating License, the Final Draft version will be transmitted to you for your final review and certification that they accurately reflect the as-built conditions of the plant and the FSAR.

If you have any questions regarding this request, you should contact Manny Licitra, the Licensing Project Manager.

Sincerely,

George W. Knighton, Chief
Licensing Branch No. 3
Division of Licensing
