447 March Road
Ottawa, ON K2K 1X8

SUBJECT: RE-ISSUANCE OF AMENDED REGISTRATION CERTIFICATE
NR-0220-S-103-S

The U.S. Nuclear Regulatory Commission (NRC) has revised your Registration Certificate NR-0220-S-103-S to increase the maximum diameter of inner capsules of source Model C-188 Type 13 as requested by your e-mail dated May 26, 2017.

You must distribute the product in accordance with the statements and representations contained in your application, with enclosures thereto, and the information set out in your registration certificate. As a general rule, you must request and obtain an amendment to the certificate before you make changes or modifications to the information submitted to obtain the certificates.

Please note that a certificate of registration, by itself, does not convey authorization for possession or distribution of radioactive sources or devices. An NRC or Agreement State license is required for possession and distribution of radioactive materials, sources, or devices.

Please read over the registration certificate in its entirety and notify us immediately of any errors or omissions.

You are obligated to notify us promptly in writing if you decide to no longer manufacture, distribute, or offer service support for the product.

If you have any questions, please contact me at Celimar.Valentin-Rodriguez@nrc.gov or at (301) 415-7124.

Sincerely,

/RA/

Celimar Valentin-Rodriguez, Ph.D.
