Subject: Public Disclosure of Proprietary Information

Gentlemen:

The Bechtel Power Corporation of Gaithersburg, Maryland has advised us that the document listed below which was provided to Florida Power and Light for the St. Lucie Unit #1 will be made public unless we request that this information be withheld from public disclosure as provided in 10CFR2.790 (b).

QTR105
August 28, 1980
Rev. 1

Qualification of EA180 Series Limit
Switches for Use in Nuclear Power Plants
in Compliance with IEEE Standards 323-
1974, 382-1972 and 344-1975.

We consider the information contained in this document to be proprietary, and we request that the NRC withhold this information from public disclosure.

This report contains proprietary information on non-metallic components (elastomers, contact block material, etc.) and lubricants which would be advantageous to our competitors.

The investigation and final choice of materials represent a considerable financial expenditure to Namco Controls and we do not wish to jeopardize this investment.

Very truly yours,

Norman E. Swanson
President
Namco Controls
