Dear Mr. Williams:

SUBJECT: REANALYSIS OF REACTOR COOLANT PUMP SEIZED ROTOR AND
 LOSS OF ALL NON-EMERGENCY AC POWER

As a result of several conference calls, you supplied some clarifying information concerning the reactor coolant pump seized rotor and loss of all non-emergency AC power accidents. In reviewing this information, several areas of apparent conflict have been identified. These areas are covered in the enclosure to this letter and were telecopied to your staff on January 26 and February 2, 1984.

It is requested that you provide responses to these requests for clarification as early as possible in order for the staff to complete its review. Our current schedule calls for the review to be completed by the Reactor System Branch by February 29, 1984. If there are any questions, please contact the Project Manager, D. Sells (301) 492-9735.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P.L. 96-511.

Sincerely,

Original signed by:

James R. Miller, Chief
 Operating Reactors Branch #3
 Division of Licensing

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research. It also provides a brief overview of the methodology used in the study.

2. The second part of the report is a detailed description of the study area. It includes information about the location of the study area, the population of the study area, and the characteristics of the study area. It also discusses the data sources used in the study.

3. The third part of the report is a detailed description of the study results. It includes information about the findings of the study, the conclusions drawn from the findings, and the implications of the findings. It also discusses the limitations of the study and the need for further research.

4. The fourth part of the report is a detailed description of the study conclusions. It includes information about the overall findings of the study, the conclusions drawn from the findings, and the implications of the findings. It also discusses the limitations of the study and the need for further research.

5. The fifth part of the report is a detailed description of the study recommendations. It includes information about the recommendations made by the study, the reasons for the recommendations, and the implications of the recommendations. It also discusses the limitations of the study and the need for further research.

6. The sixth part of the report is a detailed description of the study references. It includes information about the references used in the study, the sources of the references, and the relevance of the references. It also discusses the limitations of the study and the need for further research.

7. The seventh part of the report is a detailed description of the study appendices. It includes information about the appendices used in the study, the content of the appendices, and the relevance of the appendices. It also discusses the limitations of the study and the need for further research.

8. The eighth part of the report is a detailed description of the study acknowledgments. It includes information about the individuals and organizations that provided support for the study, the reasons for the support, and the implications of the support. It also discusses the limitations of the study and the need for further research.

9. The ninth part of the report is a detailed description of the study index. It includes information about the index used in the study, the content of the index, and the relevance of the index. It also discusses the limitations of the study and the need for further research.

10. The tenth part of the report is a detailed description of the study bibliography. It includes information about the bibliography used in the study, the content of the bibliography, and the relevance of the bibliography. It also discusses the limitations of the study and the need for further research.
