Subject: Receipt, Docketing, and Closure of GLE-2017-0045 (List of Owners, Officers, Directors, and Executive Personnel (OODEPs))
Date: Monday, October 30, 2017 9:02:00 AM

Pat,

The U.S. Nuclear Regulatory Commission (NRC) has received and docketed the submittal of Global Laser Enrichment (GLE) GLE-2017-0045 in the Agencywide Documents Access and Management System (ADAMS), see Accession Number ML17279A135 and non-public package ML17279A098. The submittal provided the twenty-third amendment to the GLE original foreign ownership, control, or influence information supporting the NRC facility clearance (FCL). The submittal provides NRC standard notification of the change to two of the Owners, Officers, Directors, and Executive Personnel (OODEP). The update has been reviewed by the FOCl technical staff in the Office of Nuclear Security and Incident Response who determined that it is routine and acceptable.

This email acknowledges and concludes NRC action on GLE-2017-0045. If you have any questions, please contact me.

This email will docketed in ADAMS for our records. Thanks.

Sincerely,

Matt Bartlett
