

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

October 31, 2017

Mr. Oscar Paulson
Kennecott Uranium Company
P.O. Box 1500
Rawlins, WY 82301-1500

SUBJECT: KENNECOTT URANIUM COMPANY, SWEETWATER – REQUEST FOR
ADDITIONAL INFORMATION RE: THE SWEETWATER LICENSE RENEWAL
(DOCKET NUMBER: 40-8584)

Dear Mr. Paulson:

The purpose of this letter is to request additional information (RAI) needed by the U.S. Nuclear Regulatory Commission (NRC) staff to support its environmental review.

By letter dated November 14, 2016, (Agencywide Documents Access and Management System [ADAMS] Accession Number ML16335A183) Kennecott Uranium Company (KUC) submitted revisions to its Environmental Report in support of its requested license renewal of Source Material License SUA-1350. The NRC staff reviewed the responses and determined that the responses were either not complete or did not provide sufficient information for the NRC staff to complete its environmental review.

In order for the NRC staff to complete its review, KUC must provide sufficient detailed information to address the enclosed RAIs in a timely manner. KUC has thirty (30) days upon receipt of this letter to provide a response or provide a timely schedule stating when responses will be submitted to the NRC. Failure to submit a response within 30 days may further impact the NRC staff's application review schedule. We plan to provide a revised project schedule once we have a better understanding of the timing of KUC's responses to these questions.

In accordance with Title 10 of the *Code of Federal Regulations* Section 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspections in the NRC Public Document Room or from the Publicly Available Records component of NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

O. Paulson
