Mail Station: P1-37  
Washington, DC 20555

Reference: Letter No. 102-01974, dated February 4, 1991, from W. F. Conway, Executive Vice President, Nuclear, Arizona Public Service Company to the U. S. Nuclear Regulatory Commission.

Dear Sirs:

Subject: PALO VERDE NUCLEAR GENERATING STATION (PVNGS)  
UNITS 1, 2, AND 3  
DOCKET NOS. 50-528/529/530  
PM TASK FORCE COMPLETION DATE REVISION  
RE: REPLY TO NOTICE OF VIOLATION 528/90-42-06  
File: 92-070-026

The referenced letter provided Arizona Public Service Company's (APS) response to NRC Notice of Violation 50-528/90-42-06. The response stated that a PM Task Force had been created to review and evaluate each PM task on a system by system basis. This review was expected to be completed by December 31, 1991.

On November 6, 1991, APS met with NRC and presented the status of the project. During that meeting APS stated that fifty-two of the one hundred and five systems had been completed. This included the multi-discipline safety-related systems and seven systems identified as important to the Probabilistic Risk Assessment. However, the review process has taken longer than originally planned, and review of the remaining systems is now expected to be completed by August 1, 1992.

If you should have any questions or require additional information, please contact Mr. T. R. Bradish at (602) 393-2521.

Sincerely,

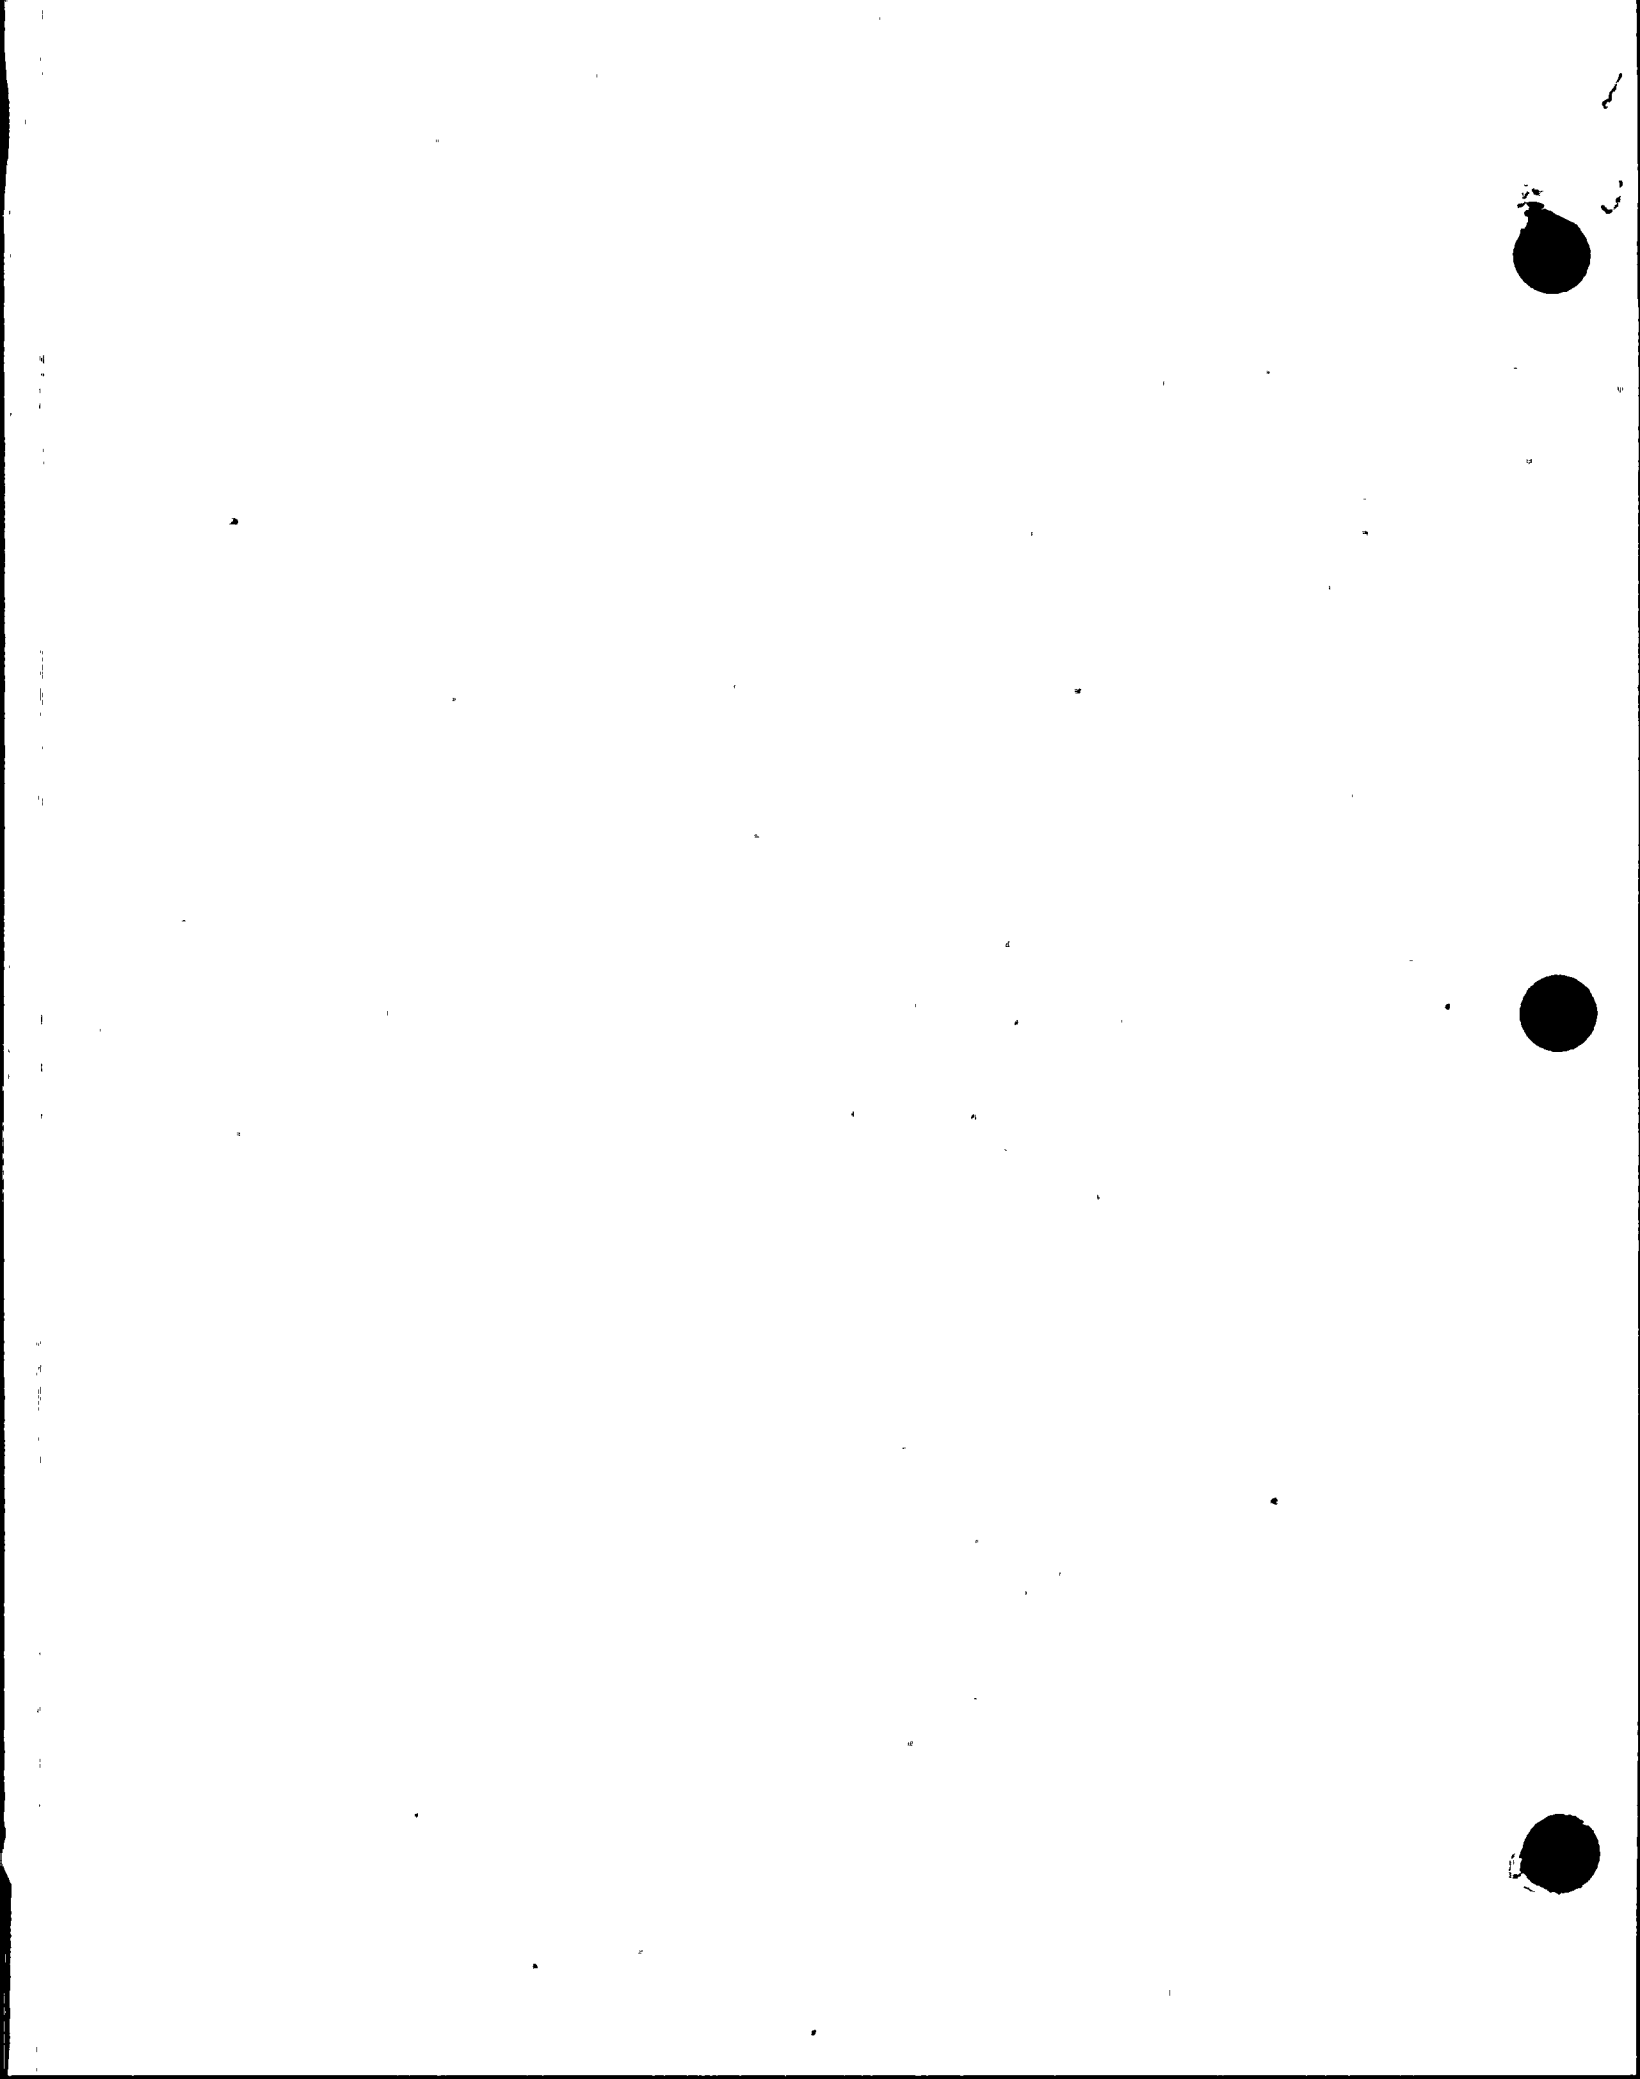

*James M. Levine for WFC*
