Dear Sirs:

**Subject: Palo Verde Nuclear Generating Station (PVNGS)**  
**Units 1, 2, and 3**  
**Docket Nos. STN 50-528/529/530**  
**Change to the Emergency Plan**  
**File: 93-002-493; 93-056-026**

Arizona Public Service Company (APS) has changed the Emergency Plan in accordance with 10 CFR 50.54 (q) and 50.4. This change relocates an Emergency Response Facility Data Acquisition and Display System (ERFDADS) terminal from the Corporate Emergency Center to Technical Engineering Center (TEC). In the next revision to the Emergency Plan, the reference to the ERFDADS terminal in section 7.1.7, Corporate Emergency Center (CEC), will be deleted, and Section 7.3.1.7, Emergency Response Facility Data Acquisition and Display System (ERFDADS), will be revised to reference the Technical Engineering Center.

APS has determined that this change does not decrease the effectiveness of the Emergency Plan. The ERFDADS terminal will be more effectively used at the TEC which provides technical support to the CEC. Another ERFDADS terminal is also located in the downtown engineering building nearby.

If you should have any questions, please call Thomas R. Bradish at (602) 393-5421.

Sincerely,

*James M. Levine for WFC*
