Subject: FitzPatrick: Issuance of License Amendment Re: Cyber Security Plan Implementation Schedule (CAC. NO. MF8920)

ATTENTION: This email came from an external source. Do not open attachments or click on links from unknown senders or unexpected emails.

Alyse,

The NRC staff is preparing to issue the following license amendment regarding James A. FitzPatrick Power Plant. A brief description of the license amendment request (LAR) is provided below. Additional information can be found in the licensee's submittal which is also referenced below by ADAMS Accession No.

Please let me know if you have any comments or questions regarding this licensing action by September 5, 2017, if possible. My current projection for issuance of the amendment is September 29, 2017.

JAMES A. FITZPATRICK NUCLEAR POWER PLANT - ISSUANCE OF AMENDMENT RE: CYBER SECURITY PLAN IMPLEMENTATION SCHEDULE (CAC NO. MF8920)

Application date: December 8, 2016 (ML16343A947), submitted by Entergy Nuclear Operations Inc. (ENO) ¹

Brief Description: The amendment would revise the date of the Cyber Security Plan implementation schedule Milestone 8 from December 15, 2017, to June 15, 2019, and would revise paragraph 2.D in the renewed facility operating license for the James A. FitzPatrick Nuclear Power Plant. The NRC issued a proposed finding that the amendment involves no significant hazards consideration in the Federal Register on January 31, 2017 (82 FR 8869) ([Link](#)). The NRC has not received any public comment or requests for hearing on this LAR.

1 The NRC approved the transfer of the license from Entergy Nuclear FitzPatrick, LLC and ENO to Exelon Generation Company, LLC (Exelon) on March 31, 2017. By letter dated March 31, 2017, Exelon stated it would assume responsibility for actions and commitments submitted by ENO.

Sincerely, Booma

Booma Venkataraman, P.E.
