April 8, 1983

Director of Nuclear Reactor Regulation
Attention: Mr. Dennis M. Crutchfield, Chief
Operating Reactors Branch No. 5
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Environmental Qualification of Electrical Equipment
R. E. Ginna Nuclear Power Plant
Docket No. 50-244

Dear Mr. Crutchfield:

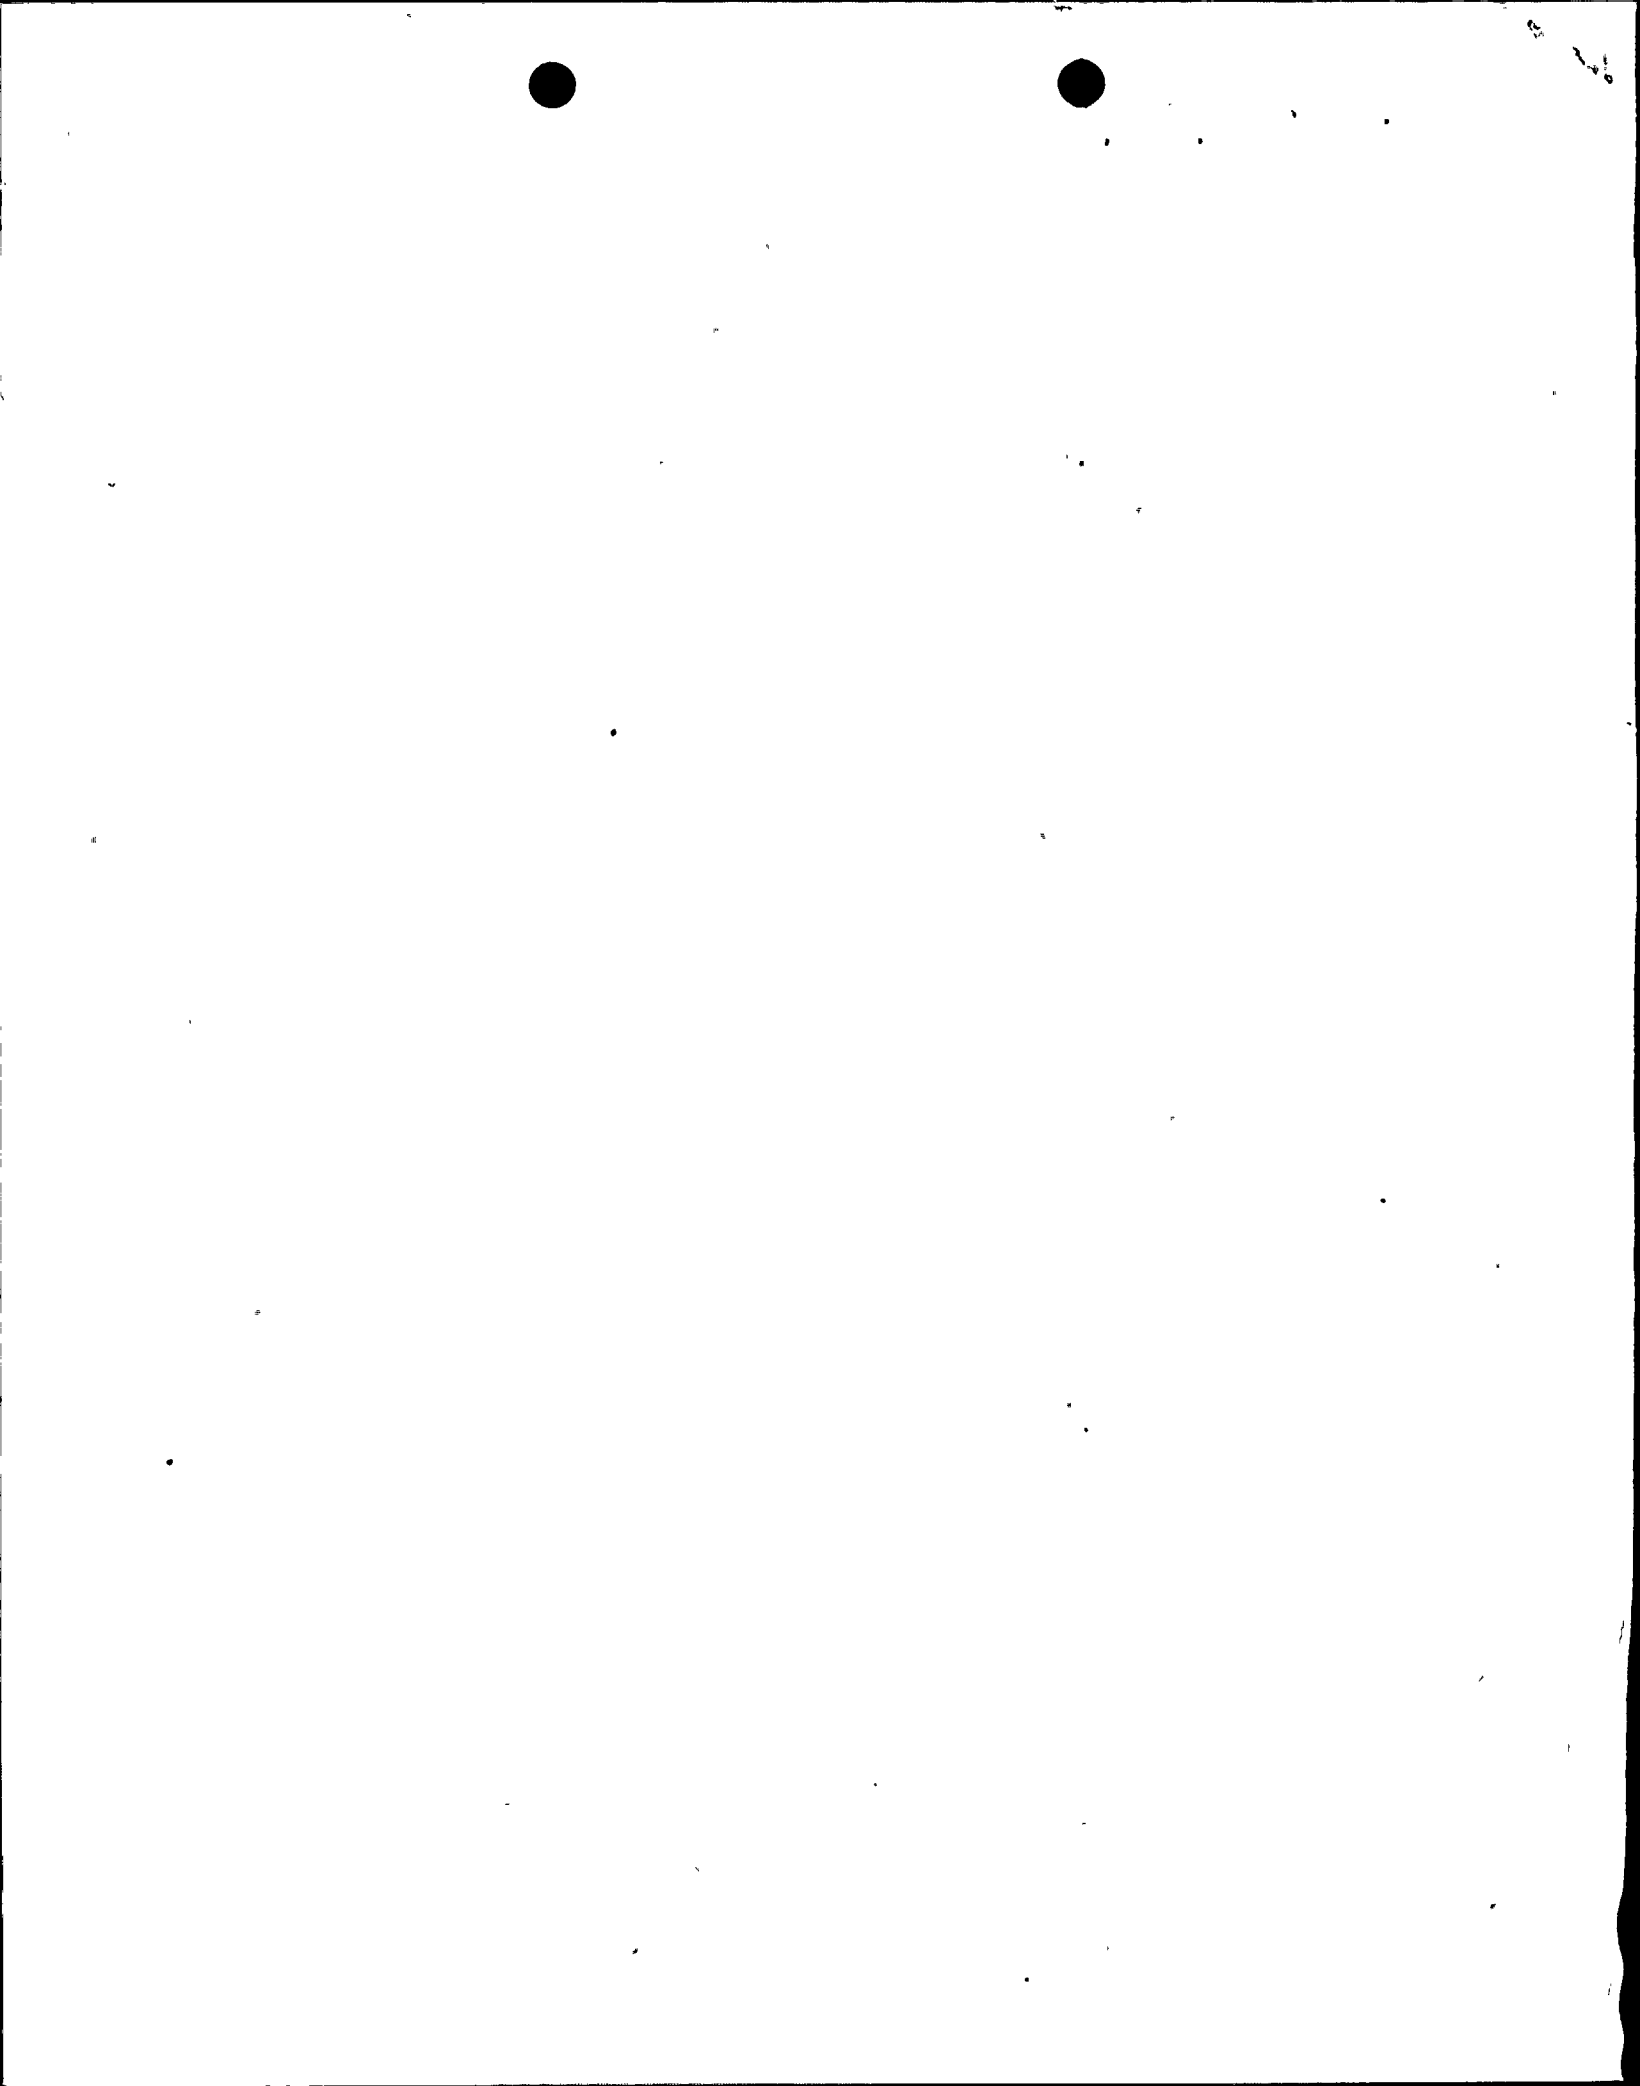

This letter responds to a request by the NRC relative to proprietary information included in the Franklin Research Center Technical Evaluation Report, attached to the December 13, 1982 NRC Safety Evaluation Report. In the December 13 letter, it was requested that RG&E identify information in the SER which still requires proprietary protection. The attached letters from Westinghouse and Valcor identify the proprietary sections. The proprietary items for Westinghouse are 27, 29, and 30. The proprietary items for Valcor are 10 and 66.

Very truly yours,

John E. Maier

Dear Mr. Wrobel:

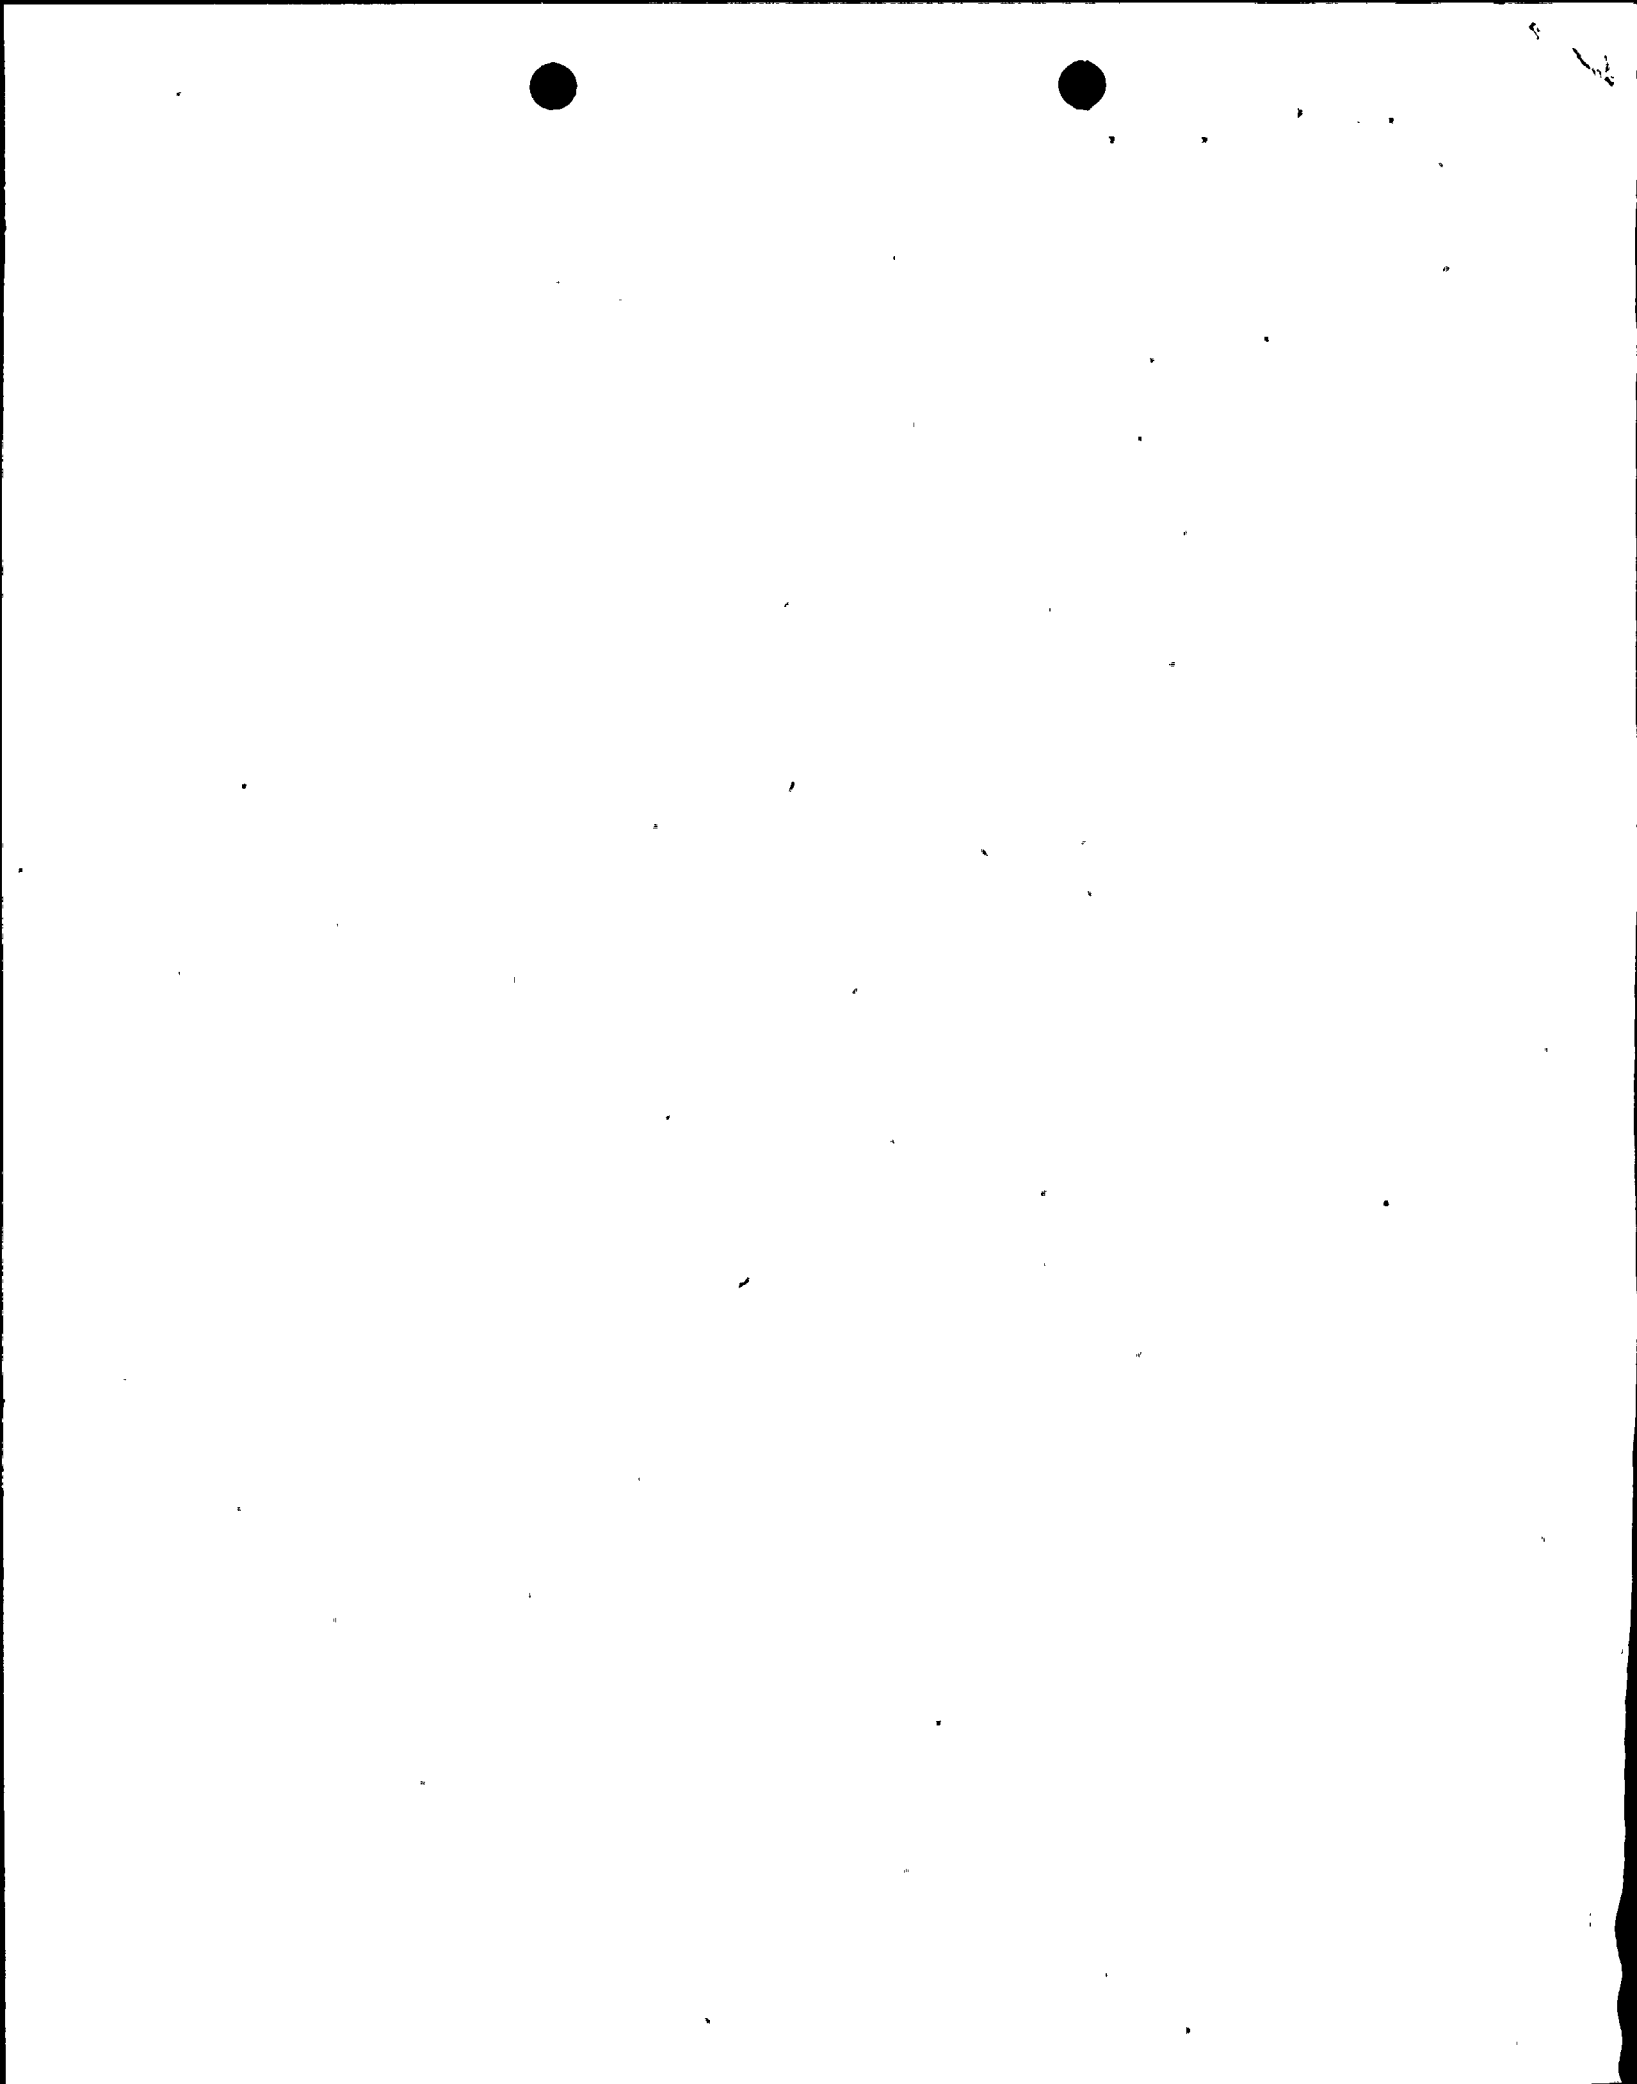

Per your request Westinghouse has reviewed the attached TER and has indicated by brackets which information is considered proprietary by Westinghouse. Applications for Withholding and Affidavits for this information were submitted to the NRC when the proprietary documents were originally submitted.

For your convenience, items and page numbers that contain this information are identified on the attached sheet.

Attention: Mr. George L. Wrobel

Reference: NRC letter December 13, 1982
Telecon 1/27/83 and your note

Dear Mr. Wrobel,

The Valcor Qualification Report QR 52600-5940-2 is proprietary as indicated on the report and please consider this letter an affidavit confirming that fact.

The report contains information from many years of research which would be competitively detrimental if publicly published.

We hope this information fulfills your requirements.

Very truly yours,

Gary Kristoff
Contracts Administrator
Nuclear Products
