**Subject:** [External\_Sender] RE: DRAFT - Request for Additional Information Regarding ASR Amendment Request

Morning Justin.

We are having an internal discussion tomorrow afternoon as part of our regularly scheduled updates with SGH on susceptibility study progress. I'd anticipate requesting a follow up call with the NRC staff to review the RAI questions in the near term as early as next week.

Ken

**Subject:** DRAFT - Request for Additional Information Regarding ASR Amendment Request

CAUTION - EXTERNAL EMAIL

Ken

By letter dated August 1, 2016, as supplemented by letter dated September 30, 2016, NextEra Energy Seabrook, LLC (NextEra) submitted a license amendment request for Seabrook Station, Unit No. 1. The proposed amendment would revise the current licensing basis to adopt a methodology for the analysis of seismic category I structures with concrete affected by alkali-silica reaction. In reviewing NextEra's application, the NRC staff has developed the attached DRAFT request for additional information (RAI). Some of these DRAFT RAIs were first transmitted to you on May 5, 2017. Furthermore, these RAIs had been previously withheld from our August 4, 2017, RAIs (ADAMS Accession No. ML17214A085) and were a topic of discussion at the public meeting on August 24, 2017, regarding the NRC staff's concerns with your Stage Three evaluations.

Please review these revised DRAFT RAIs to ensure that the questions are understandable, the regulatory basis is clear, there is no proprietary information contained in the RAI, and to determine if the information was previously docketed. Please let me know if a clarification call is desired to ensure the questions are fully understood. This email does not convey a formal NRC staff position, and it does not formally request for additional information.
