**Subject:** Question on NRC Regulatory Contacts

Good morning, Mr. Pavlick.

My understanding is that Larry Teahon is retiring today.

As you know, Mr. Teahon has been the U.S. Nuclear Regulatory Commission's (NRC's) regulatory contact for the Crow Butte facility, as well as the expansion areas associated with it, for many years.

We want to make sure that Mr. Teahon's absence does not create any licensing uncertainties associated with operations at the main facility or our licensing efforts with the Marsland Expansion Area.

Referring to Cameco's June 1, 2017, letter (ML17178A268), designating NRC regulatory contacts for the Nebraska operations, have you designated a replacement for Mr. Teahon?

Thank you.

Ron
