

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

November 2, 2017

Ms. Kimberly Manzione,
Licensing Manager
Holtec International
Holtec Technology Campus
One Holtec Boulevard
Camden, NJ 08104

SUBJECT: ACCEPTANCE REVIEW OF REQUEST FOR AMENDMENT NO. 4 TO
CERTIFICATE OF COMPLIANCE NO. 1032 FOR THE HI-STORM
FLOOD/WIND STORAGE SYSTEM

Dear Ms. Manzione:

By letter dated March 11, 2016, and supplemented by letters dated September 16, 2016, and January 31, 2017, Holtec International (Holtec) submitted a request to the U.S. Nuclear Regulatory Commission to amend Certificate of Compliance No. 1032 for the HI-STORM FW Multi-Purpose Canister Storage System.

The staff has conducted an acceptance review of the application and determined that it contains sufficient technical information to begin a detailed technical review. We have established a schedule for the review. The schedule allows for the staff to complete and issue the first request for additional information in November 2017, and a draft certificate of compliance and safety evaluation report for rulemaking in March 2018, based on Holtec responding to any request for additional information by January 2018. The staff estimates that completing the safety review of this certificate amendment application will require approximately 400 staff review hours.

Please reference CAC No. 001028, Docket No. 72-1032 and EPID No. L-2017-LLA-0030 (formerly CAC No. L25102) in future correspondence related to this licensing action. If you have any questions, please contact me at (301) 415-3249.

Sincerely,

/RA/

Ruth C. Reyes, Project Manager
Spent Fuel Licensing Branch
Division of Spent Fuel Management
Office of Nuclear Material Safety
and Safeguards
